*Graves purchased before Nov. 2011 with written request for double depth burial will be honored. Requests after this time will only be allowed in select Metro cemeteries.

Ground burial liners

Our cemeteries require that in cases of ground burial, caskets and urns must be placed in a concrete "outer burial container" to avoid the ground settling over time. Grave liners are the simplest containers that meet this requirement. Vaults offer additional protection from the elements.

Please keep in mind that the cemeteries purchase vaults and liners in quantity from the manufacturers and, unlike some suppliers, we can set them in place with our own staff and equipment. This usually means a cost savings for our customers. Metro cannot guarantee products or services purchased from third parties.

Concrete Liner	\$695
