

POWELL-DIVISION TRANSIT AND DEVELOPMENT PROJECT

TRANSIT ROUTES TO ADVANCE FOR FURTHER CONSIDERATION

Adopted by the Steering Committee on March 16, 2015

Steering Committee members reached consensus on bus rapid transit routes to advance for further consideration.

- **River crossing options** - The committee unanimously advanced the Tilikum Crossing.
- **Portland north/south crossover options** - The committee unanimously advanced 82nd Ave and also chose to continue studying 50th and 52nd avenues.
- **Gresham north/south options** - The committee advanced Eastman Pkwy, Cleveland Ave and Hogan Rd.

What does this mean? The project will continue to study these route options by developing design concepts and analyzing traffic, modeling transit travel times and ridership, developing conceptual cost estimates and seeking input from the public.
