

## Chestnut Grove Memorial Garden at Lone Fir Cemetery

Chestnut Grove Memorial Garden opened in 2013 to provide an option for the increasing number of people who choose to be cremated. The garden gives families an opportunity to leave their legacy at Lone Fir Cemetery, one of the region's most scenic and beloved cemeteries.

Lone Fir, nestled in the heart of Southeast Portland, is the city's oldest cemetery. About 25,000 people are buried there, including some of the city's most notable residents and pioneers.

Casket burial spaces are also available.

Metro staff members are trained to offer customized, culturally sensitive options for burials and cremations. Staff members also serve as educators and preservationists at Metro's 14 historic cemeteries to ensure the spaces are accessible to future generations.

### About Metro

Clean air and clean water do not stop at city limits or county lines. Neither does the need for jobs, a thriving economy, and sustainable transportation and living choices for people and businesses in the region. Voters have asked Metro to help with the challenges and opportunities that affect the 25 cities and three counties in the Portland metropolitan area.

A regional approach simply makes sense when it comes to providing services, operating venues and making decisions about how the region grows. Metro works with communities to support a resilient economy, keep nature close by and respond to a changing climate. Together we're making a great place, now and for generations to come.
