

Natural Areas Vegetation Management Public Contract

METRO
600 NE Grand Ave.
Portland, OR 97232-2736
(503) 797-1700

CONTRACT NO. 930421

PUBLIC CONTRACT

This Contract is entered into between Metro, a metropolitan service district organized under the laws of the State of Oregon and the Metro Charter, whose address is 600 NE Grand Avenue, Portland, Oregon 97232-2736, and D. Franco Contracting Inc., whose address is 4425 60th Ave. NE, Salem, OR 97305, hereinafter referred to as the "Contractor."

THE PARTIES AGREE AS FOLLOWS:

ARTICLE I SCOPE OF WORK

Contractor shall perform the work described in the Scope of Work attached hereto as Attachment A. All services shall be of good quality and, otherwise, in accordance with the Scope of Work.

ARTICLE II TERM OF CONTRACT

The initial term of this Contract shall be for two year period commencing January 3, 2011 through and including December 21, 2012.

Metro at its sole discretion may elect to renew this Contract for two additional terms. The first renewal term shall be for a two year period. The second renewal term shall be for a one year period. Upon Metro's renewal, Contractor will sign an amendment to this Contract.

ARTICLE III CONTRACT SUM AND TERMS OF PAYMENT

Metro shall compensate Contractor for work performed and/or goods supplied in the amount(s), manner and at the time(s) specified in the Scope of Work. Metro shall not be responsible for payment of any materials, expenses or costs other than those which are specifically included in the Scope of Work. Total compensation under this Contract shall not exceed ONE HUNDRED FIFTY THOUSAND AND NO/100 DOLLARS (\$150,000.00) during the initial two-year term.

ARTICLE IV LIABILITY AND INDEMNITY

Contractor is an independent contractor and assumes full responsibility for the content of its work and performance of Contractor's labor, and assumes full responsibility for all liability for bodily injury or physical damage to person or property arising out of or related to this Contract, and shall indemnify, defend and hold harmless Metro, its agents and employees, from any and all claims, demands, damages, actions, losses, and expenses, including attorney's fees, arising out of or in any way connected with its performance of this Contract. Contractor is solely responsible for paying Contractor's subcontractors and nothing contained herein shall create or be construed to create any contractual relationship between any subcontractor(s) and Metro.

ARTICLE V TERMINATION

Metro may terminate this Contract upon giving Contractor seven (7) days written notice. In the event of termination, Contractor shall be entitled to payment for work performed to the date of termination. Metro shall not be liable for indirect, consequential damages or any other damages. Termination by Metro will not waive any claim or remedies it may have against Contractor.

Natural Areas Vegetation Management Public Contract

ARTICLE VI INSURANCE & BONDS

Contractor shall purchase and maintain at Contractor's expense, the following types of insurance covering Contractor, its employees and agents.

A. Commercial general liability insurance covering personal injury, property damage, and bodily injury with automatic coverage for premises and operation and product liability shall be a minimum of \$1,000,000 per occurrence. Any contractor performing work set forth in Category 4 of the attached Scope of Work, Forest Stand Management services, must provide an endorsement or proof of Loggers Broad Property Damage or equivalent coverage. The policy must be endorsed with contractual liability coverage. **Metro, its elected officials, departments, employees and agents shall be named as an ADDITIONAL INSURED.**

B. Automobile bodily injury and property damage liability insurance. Insurance coverage shall be a minimum of \$1,000,000 per occurrence. **Metro, its elected officials, departments, employees, and agents shall be named as an ADDITIONAL INSURED.**

C. Workers' compensation coverage for compliance with ORS 656.017 must cover Contractor's operations under this Contract, whether such operations be by Contractor or by any subcontractor or anyone directly or indirectly employed by either of them.

Neither Contractor nor any subcontractor shall commence work under this Contract until Contractor has obtained all the insurance required herein and submitted a certificate of insurance to Metro. Contractor shall maintain the insurance for the duration of this Contract. The insurance certificate shall provide for thirty days advance written notice to Metro's Project Manager prior to cancellation. Metro's failure to confirm that Contractor has in fact complied with this Section shall not relieve Contractor from its obligation to comply with the terms set forth herein.

In addition, for public works subject to ORS 279C.800 to 279C.870, Contractor and every subcontractor shall have a public works bond required by 2005 Oregon Laws Chapter 360 filed with the Construction Contractors Board before starting work on the project, unless exempt under Section 2 of 2005 Oregon Laws Chapter 360.

ARTICLE VII PUBLIC CONTRACTS

All applicable provisions of ORS chapters 187 and 279A, 279B, and 279C and all other terms and conditions necessary to be inserted into public contracts in the State of Oregon, are hereby incorporated as if such provision were a part of this Agreement. Specifically, it is a condition of this contract that Contractor and all employers working under this Agreement are subject employers that will comply with ORS 656.017 as required by 1989 Oregon Laws, Chapter 684.

For public work subject to ORS 279C.800 to 279C.870, Contractor shall pay prevailing wages. If such public work is subject both to ORS 279C.800 to 279C.870 and to 40 U.S.C. 276a, Contractor and every subcontractor on such public work shall pay at least the higher prevailing wage. The Contractor and each subcontractor shall pay workers not less than the specified minimum hourly rate of wage in accordance with Section 7 of 2005 Oregon Laws Chapter 360. In addition, Contractor shall pay an administrative fee as provided in ORS 279C.825(1) to the Bureau of Labor and Industries pursuant to the administrative rules established by the Commissioner of Labor and Industries. Contractor must promptly pay, as due, all persons supplying to such contractor labor or material used in this contract. If the contractor or first-tier subcontractor fails, neglects, or refuses to make payment to a person furnishing labor or materials in connection with the public contract for a public improvement within 30 days after receipt of payment from the public contracting agency or a contractor, the contractor or first-tier subcontractor shall owe the person the amount due plus shall pay interest in accordance with ORS 279C.515. If the contractor or first-tier subcontractor fails, neglects, or refuses to make payment, to a person furnishing labor or materials in connection with the public contract, the person may file a complaint with the Construction Contractors Board, unless payment is subject to a good faith dispute as defined in ORS 279C.580.

Natural Areas Vegetation Management Public Contract

METRO
600 NE Grand Ave.
Portland, OR 97232-2736
(503) 797-1700

Contractor must pay any and all contributions and amounts due to the Industrial Accident Fund from contractor or subcontractor and incurred in the performance of the contract. No liens or claims are permitted to be filed against Metro on account of any labor or material furnished. Contractor is required to pay the Department of Revenue all sums withheld from employees pursuant to ORS 316.167.

For public improvement work all contractors must demonstrate that an employee drug-testing program is in place.

ARTICLE VIII QUALITY OF SERVICES

Contractor's services shall be performed with the same degree of care, skill, diligence, competency, and knowledge which is ordinarily exhibited and possessed by other professionals in good standing in the same or similar field and community as Contractor.

ARTICLE IX OWNERSHIP OF DOCUMENTS

Unless otherwise provided herein, all documents, instruments and media of any nature produced by Contractor pursuant to this agreement are Work Products and are the property of Metro, including but not limited to: drawings, specifications, reports, scientific or theoretical modeling, electronic media, computer software created or altered specifically for the purpose of completing the Scope of Work, works of art and photographs. Unless otherwise provided herein, upon Metro request, Contractor shall promptly provide Metro with an electronic version of all Work Products that have been produced or recorded in electronic media. Metro and Contractor agree that all work Products are works made for hire and Contractor hereby conveys, transfers, and grants to Metro all rights of reproduction and the copyright to all such Work Products.

- A. Contractor and subcontractors shall maintain all fiscal records relating to such contracts in accordance with generally accepted accounting principles. In addition, Contractor and subcontractors shall maintain any other records necessary to clearly document:
1. The performance of the contractor, including but not limited to the contractor's compliance with contract plans and specifications, compliance with fair contracting and employment programs, compliance with Oregon law on the payment of wages and accelerated payment provisions; and compliance with any and all requirements imposed on the contractor or subcontractor under the terms of the contract or subcontract;
 2. Any claims arising from or relating to the performance of the contractor or subcontractor under a public contract;
 3. Any cost and pricing data relating to the contract; and
 4. Payments made to all suppliers and subcontractors.
- B. Contractor and subcontractors shall maintain records for the longer period of (a.) six years from the date of final completion of the contract to which the records relate or (b.) until the conclusion of any audit, controversy or litigation arising out of or related to the contract.
- C. Contractor and subcontractors shall make records available to Metro and its authorized representatives, including but not limited to the staff of any Metro department and the staff of the Metro Auditor, within the boundaries of the Metro region, at reasonable times and places regardless of whether litigation has been filed on any claims. If the records are not made available within the boundaries of Metro, Contractor or subcontractor agrees to bear all of the costs for Metro employees, and any necessary consultants hired by Metro, including but not limited to the costs of travel, per diem sums, salary, and any other expenses that Metro incurs, in sending its employees or consultants to examine, audit, inspect, and copy those records. If Contractor elects to have such records outside these boundaries, the costs paid by Contractor to Metro for inspection, auditing, examining and copying those records shall not be recoverable costs in any legal proceeding.
- D. Contractor and subcontractors authorize and permit Metro and its authorized representatives, including but not limited to the staff of any Metro department and the staff of the Metro Auditor, to inspect, examine, copy and audit the books and records of Contractor or subcontractor, including tax returns, financial statements, other financial documents

Natural Areas Vegetation Management Public Contract

and any documents that may be placed in escrow according to any contract requirements. Metro shall keep any such documents confidential to the extent permitted by Oregon law, subject to the provisions of section E.

E. Contractor and subcontractors agree to disclose the records requested by Metro and agree to the admission of such records as evidence in any proceeding between Metro and Contractor or subcontractor, including, but not limited to, a court proceeding, arbitration, mediation or other alternative dispute resolution process.

F. Contractor and subcontractors agree that in the event such records disclose that Metro is owed any sum of money or establish that any portion of any claim made against Metro is not warranted, Contractor or subcontractor shall pay all costs incurred by Metro in conducting the audit and inspection. Such costs may be withheld from any sum that is due or that becomes due from Metro.

G. Failure of Contractor or subcontractor to keep or disclose records as required by this document or any solicitation document may result in disqualification as a bidder or proposer for future Metro contracts as provided in ORS 279B.130 and Metro Code Section 2.04.070(c), or may result in a finding that Contractor or subcontractor is not a responsible bidder or proposer as provided in ORS 279B.110 and Metro Code Section 2.04.052.

ARTICLE X SUBCONTRACTORS

Contractor shall notify Metro prior to negotiating any subcontracts for the performance of any of the services and/or supply of any of the goods covered by this Contract. Metro reserves the right to reasonably reject any subcontractor or supplier and no increase in Contractor's compensation shall result thereby. All subcontracts related to this Contract shall include the terms and conditions of this agreement. Contractor shall be fully responsible for all of its subcontractors as provided in Article IV.

ARTICLE XI RIGHT TO WITHHOLD PAYMENTS

Metro shall have the right to withhold from payments due Contractor such sums as necessary, in Metro's sole opinion, to protect Metro against any loss, damage or claim which may result from Contractor's performance or failure to perform under this agreement or the failure of Contractor to make proper payment to any suppliers or subcontractors. In addition for public improvement work, if a Contractor is required to file certified statements under ORS 279C.845, Metro shall retain 25 percent of any amount earned by Contractor on the public works until the contractor has filed all required certified statements with Metro.

If a liquidated damages provision is contained in the Scope of Work and if Contractor has, in Metro's opinion, violated that provision, Metro shall have the right to withhold from payments due Contractor such sums as shall satisfy that provision. All sums withheld by Metro under this Article shall become the property of Metro and Contractor shall have no right to such sums to the extent that Contractor has breached this Contract.

ARTICLE XII SAFETY

If services of any nature are to be performed pursuant to this agreement, Contractor shall take all necessary precautions for the safety of employees and others in the vicinity of the services being performed and shall comply with all applicable provisions of federal, state and local safety laws and building codes, including the acquisition of any required permits.

Natural Areas Vegetation Management Public Contract

METRO
600 NE Grand Ave.
Portland, OR 97232-2736
(503) 797-1700

ARTICLE XIII INTEGRATION OF CONTRACT DOCUMENTS

All of the provisions of any procurement documents including, but not limited to, the Advertisement for Bids, Proposals or responses, General and Special Instructions to Bidders, Proposal, Scope of Work, and Specifications which were utilized in conjunction with the bidding of this Contract are hereby expressly incorporated by reference. Otherwise, this Contract represents the entire and integrated agreement between Metro and Contractor and supersedes all prior negotiations, representations or agreements, either written or oral. This Contract may be amended only by written instrument signed by both Metro and Contractor. The law of the state of Oregon shall govern the construction and interpretation of this Contract.

ARTICLE XIV INDEPENDENT Contractor STATUS; COMPLIANCE

Contractor is an independent contractor for all purposes and shall be entitled only to the compensation provided for in this Contract and attached Scope of Work. Under no circumstances shall Contractor be considered an employee of Metro. Contractor shall provide all tools or equipment necessary to carry out this Contract, and shall exercise complete control in achieving the results specified in the Scope of Work. Contractor is solely responsible for its performance under this Agreement; for payment of any fees, taxes, royalties, or other expenses necessary to complete the work except as otherwise specified in the Scope of Work; and for complying with federal, state, and local laws, statutes, and ordinances relative to the execution of the work set forth on the Scope of Work (including, without limitation, non-discrimination, safety and health, environmental protection, waste reduction and recycling, fire protection, permits, fees and similar subjects). Contractor shall identify and certify tax status and identification number through execution of IRS form W-9 prior to submitting any request for payment to Metro

ARTICLE XV INTERGOVERNMENTAL COOPERATIVE AGREEMENT

Pursuant to ORS 279A.215, other public agencies may use this Contract to purchase services that are identical to those described in this Contract for the price stated in this Contract. The conditions of such use by other public agencies shall be 1) that such agencies must establish contact with Contractor and must enter into a separate contract with Contractor that contains negotiated delivery requirements and other contractual terms and conditions; and 2) that such agencies must enter into the separate contract during the term of this Contract and 3) that Metro accepts no responsibility for performance by either Contractor or other public agencies using this Contract. With such conditions, Metro consents to such use by another public agency.

ARTICLE XVI ASSIGNMENT

Contractor shall not assign any rights or obligations under or arising from this Contract without prior written consent from Metro.

ARTICLE XVII JURISDICTION

The Contract was entered into in the State of Oregon. This Contract will be interpreted, construed and enforced in accordance with the laws of the State of Oregon. Both parties agree that exclusive jurisdiction for any claim under this Contract will be in Multnomah County, Oregon.

Public Contract

METRO

600 NE Grand Ave.
Portland, OR 97232-2736
(503) 797-1700

ARTICLE XVIII
SEVERABILITY

The parties agree that any provision of this Contract that is held to be illegal, invalid, or unenforceable under present or future laws shall be fully severable. The parties further agree that this Contract shall be construed and enforced as if the illegal, invalid, or unenforceable provision had never been a part of them and the remaining provisions of the Contract shall remain in full force and effect and shall not be affected by the illegal, invalid, or unenforceable provision or by its severance from this Contract. Furthermore, a provision as similar to the illegal, invalid, or unenforceable provision as is possible and legal, valid, and enforceable shall be automatically added to this Contract in lieu of the illegal, invalid or unenforceable provision. Any failure by Metro to enforce a provision of the Contract is not to be construed as a waiver by Metro of this right to do so.

ARTICLE XIX
COUNTERPARTS

This Contract may be executed in counterparts or multiples, any one of which will have the full force of an original.

SCOPE OF WORK - ATTACHMENT A

1. General

Contractor has entered into a Contract with Metro that will govern the parties' relationship in the event Metro selects Contractor to provide services. A contract award does not guarantee that Metro will expend funds from the contract. The Contract entered into between Metro and Contractor is non-exclusive, and is for on-call work. No amount of work is guaranteed to Contractor. Metro reserves the right to award project work to other contractors that may or may not have executed a contract with Metro under this solicitation.

Metro will notify Contractor periodically throughout the term of the Contract (and any renewal period) as projects are ready for work. Unless otherwise agreed upon by the parties, Contractor shall begin work on sites within four (4) days of notification and shall proceed with work without delay or interruption until all sites specified by Metro are completed. Notwithstanding the foregoing, Contractor will not proceed with work until a written assignment (Work Order), properly executed by Metro, has been received.

2. Subject Matter of Work

All properties are accessible by all-weather roads, however, Contractor may need to drive or walk equipment into project sites. Contractor is responsible for all labor, materials, tools equipment, transportation, and other items necessary to supply Metro with the specified vegetation management services.

Contractor agrees to perform all associated work described in Section 6 of this Scope of Work. Herbicide application work requires Contractor to provide proof of compliance with all Oregon Department of Agriculture license requirements.

Contractor seeks to provide the following services:

- Category 1: Manual Site Preparation and Maintenance**
- Category 2: Planting**
- Category 3: Mechanical Site Preparation, Seeding, and Maintenance**

For work in categories 1, 2, 3 and 4 listed above, unless specifically exempted under Oregon law, Contractor is required to have a Farm and Forest Labor Contractor License (F/FLC License) from the State of Oregon prior to signing the Contract. For work in category 4 listed above, Contractor is also required to have a Construction Contractor License with the Construction Contractors Board (CCB License) of Oregon. Contractor shall have provided both its copy of its F/FLC and CCB License to Metro upon execution of the Contract.

3. Work Order

- A. If Contractor is asked to work on a project, a Metro project manager will provide Contractor a written Work Order with detailed work instructions. Instructions will include at a minimum: the work site location, a description of the tasks, an estimated project cost, any special

Exhibit 2 of the Scope of Work – Attachment A

instructions, and work completion deadlines. Metro may require Contractor to attend a pre-work meeting at the project site to determine the prescription and anticipated cost.

- B. Project-specific contractor selection will promote efficient use of public resources and encourage competition. Metro may consider factors that include but are not limited to Contractor's unique skills, experience or equipment, familiarity with a site, capacity compared to the size or complexity of a project, past performance on Metro projects, unit rate costs and availability when making its selection. Metro may also consider Contractor's ranking in the initial selection process and the amount of work previously performed on other Metro projects.

4. Unit Prices and Hourly Rates

- A. Contractor shall complete work at the unit prices or hourly rates contained in the Unit Price list, attached hereto as Exhibit 1 and incorporated herein, unless otherwise agreed upon. For projects that rely on unit prices, estimated quantities will be multiplied by the unit prices, resulting in a total estimated price for each line item. The total unit prices will then be added together, resulting in a total project cost estimate. Hourly rates are included for certain activities. Under any project specific instructions, Metro may elect to pay Contractor for work on an hourly basis. Contractor shall not be entitled to reimbursement for expenses incurred in providing the services unless specified in this Scope of Work.
- B. Metro will calculate project acreage to the closest tenth of an acre using a horizontal plane and without regard to slope. The minimum project size for unit pricing payment purposes will be one acre.
- C. Contractor's fees shall remain fixed for the duration of the Contract term. At the beginning of any renewal period, Contractor may adjust Contractor's unit prices and labor rates ("adjusted price") by an amount equal to three quarters (75%) of the rate of inflation between the two previous calendar years ("price adjustment factor"). The adjusted price shall be equal to the price in effect on the date the contract or contract amendment is signed ("current price") multiplied by the quantity: one plus the price adjustment factor.

$$\text{Adjusted Price} = \text{Current Price} \times (1 + \text{Price Adjustment Factor})$$

Where:

$$\text{Price Adjustment Factor} = 0.75 \times ((\text{CPI}_{t-1} / \text{CPI}_{t-2}) - 1)$$

T = Year in which the new adjusted price takes effect
CPI_{t-1} = Consumer Price Index for the previous calendar year
CPI_{t-2} = Consumer Price Index for the next previous calendar year

The Consumer Price Index set forth herein shall be based on the annual Consumer Price Index for all urban consumers, "West-Size Class A" series, published by the U.S. Department of Labor, Bureau of Labor Statistics ("BLS"). If such BLS is discontinued, a replacement index shall be agreed upon by the contracting parties. If the BLS designates an index with a new title and/or code number or table number as being the continuation of the index cited above, the new index shall be used. If the specific index "West Size Class A"

is discontinued, the "West Urban All Items" index shall be used. If both indices are discontinued, the parties shall agree on an appropriate substitute.

No increases in fees shall be effective until Contractor provides Metro with the revised fee schedule and evidence supporting the calculation of the increased fees based on the formula set forth herein. Metro will amend the Public Contract upon acceptance of the revised fee schedule.

5. Items Provided by Metro

Metro will dispense all plants, plant protection materials, mulch, seed, straw and other project materials from Metro's Borland Road Field Station located at 2661 SW Borland Road, Stafford, Oregon (Stafford Location) or The City of Portland Bureau of Environmental Services bare root cooler located at 2615 NW Industrial Way, Portland Oregon (Portland Location).

Contractor shall be responsible for the plant materials from the time it is picked up until the time it is planted or installed in the ground. Additional specific requirements applicable to Contractor's work are set forth below in Section 6 of this Scope of Work.

Metro reserves the right to designate additional locations within the Portland Metropolitan area as a pick up location.

6. Work Task Descriptions

A. Category 1: Manual Site Preparation and Maintenance

Site Prep - Backpack Spot or Area Spray

Contractor shall apply a Metro approved herbicide in a volume sufficient to adequately cover all target vegetation at the site so that it is wet but not dripping. Metro or its representative must approve the chemical concentration and surfactant to be used; Contractor shall use sufficient dye in the tank mix such that sprayed areas are easily visible to the project manager. Target vegetation may include all vegetation that is not planted by Metro or may be limited to species included on the Metro's Target Species List attached hereto as Exhibit 2. Contractor is responsible for recognizing and preventing damage to existing native vegetation and/or landscaping vegetation on adjacent land.

Site Prep - Hack and Squirt

Contractor shall treat target woody plants by making cuts totaling not less than sixty (60) percent of the plant's circumference through the bark and cambium layers and injecting or spraying (at low pressure) a Metro approved herbicide and concentration into cuts.

Site Prep – Cut Stump

Contractor shall treat target woody plants by cutting the plant to the ground and immediately applying a Metro-approved herbicide and concentration to the entire cut portion of the stump.

Site Prep - Hand Mow/Cut

Contractor shall cut target vegetation using hand held sawing, shearing, weed whipping or other cutting equipment to the specified height. Target vegetation may include all vegetation that is

not planted by Metro. Contractor is responsible for recognizing and preventing damage to existing native vegetation and/or landscaping vegetation on adjacent land.

Site Prep - Push Mow

Contractor shall cut target vegetation using pedestrian equipment (DR, Billy-goat or similar equipment) to the specified height. Target vegetation may include all vegetation that is not planted by Metro. Contractor is responsible for recognizing and preventing damage to existing native vegetation and/or landscaping vegetation on adjacent land.

Site Prep - Cut Blackberry/Brush

Contractor shall cut Himalayan blackberry (*Rubus armenicus*), evergreen blackberry (*R. laciniatus*) and other target brush to the ground and shall cut stems to less than 24 inches in length above mineral soil using manual or mechanical means. Contractor is responsible for recognizing and preventing damage to existing native vegetation.

Maintenance - Hand Mow/Cut

Contractor shall cut target vegetation in planted project sites using hand held equipment (e.g., saws, shears, trimmers, etc.). Target vegetation may include all vegetation that is not planted by Metro or may include species on Metro's Target Species List. Contractor is responsible for recognizing and preventing damage to existing native vegetation.

Maintenance - Backpack Spot or Area Spray

Contractor shall apply a Metro approved herbicide in a volume sufficient to adequately cover all target vegetation at the site so that it is wet but not dripping. Metro or its representative must approve the chemical concentration and surfactant to be used; Contractor shall use sufficient dye in the tank mix such that sprayed areas are easily visible to the Metro project manager. Target vegetation may include all vegetation that is not planted by Metro or may be limited to species included on the Metro's Target Species List. Contractor is responsible for recognizing and preventing damage to existing native vegetation.

Maintenance - Backpack Ring or Row Spray

Contractor shall apply a Metro approved herbicide in a volume sufficient to adequately cover all target vegetation within a circle of planted and naturally recruited native vegetation so that it is wet but not dripping. Metro or its representative must approve the chemical concentration and surfactant to be used; Contractor shall use sufficient dye in the tank mix such that sprayed areas are easily visible to the Metro project manager. Metro project manager will specify whether the work is a circle or line spray and will specify circle size (if applicable) prior to work start. Contractor is responsible for recognizing and preventing damage to existing native vegetation.

Maintenance - Hourly Spray

Metro may elect to pay hourly for combinations of Backpack Spot, Area, Ring or Row Spray work tasks or hire hourly work on projects where measurements of acreage is impractical or impossible, or the vegetation at the site requires herbicide spray techniques that are not consistent with typical per acre work.

Maintenance - Hourly Cut

Metro may elect to pay hourly for combinations of Mow/Cut, Cut Stump, and Push Mow work tasks or hire hourly work on projects where measurements of acreage is impractical or

Exhibit 2 of the Scope of Work – Attachment A

impossible, or the vegetation at the site requires cutting techniques that are not consistent with typical per acre work.

Maintenance - Hourly Labor

Metro project manager may elect to pay hourly labor for activities not specifically described in this Scope of Work. Activities may include but shall not be limited to carrying materials, piling debris, fire watchman and pulling fence posts.

B. Category 2: Planting

Planting - Scalp

Contractor shall prepare individual planting spots by scraping away all live and dead vegetation, roots and rhizomes from a 16-inch diameter circle unless otherwise specified. Where the slope of the ground is greater than 20 percent, Contractor shall also construct a flat planting area.

Planting - Hand or Crank Broadcast Seed

Contractor shall apply native seed mixed with or without cracked corn or other spreader to project sites by hand or using hand crank spreaders at a rate specified by Metro (typically between five (5) and twenty five (25) pounds per acre).

Planting - Harvest Seed

Contractor shall harvest native seed from sites indicated by Metro. Upon harvest, Contractor shall place seed in Metro approved bags or buckets. Seed shall be kept covered with light colored tarps and in a cool dry place until plant materials are received by Metro. Contractor shall be responsible for delivering the harvested plant material from the site of harvest to Metro's Stafford Location.

Planting – Install Small Bare Root Plants

Contractor shall plant one and two year old bare root plants (Typically less than twenty four (24) inches tall above the root crown) provided by Metro in row or random arrangements or as directed by Metro's project manager. Contractor shall be responsible for transporting plant material from one of Metro's pick up locations, referenced in Section 5 of this Scope of Work, to the project site.

Planting – Install Large Bare Root Plants

Contractor shall plant three year and older old bare root plants (typically greater than twenty four (24) inches tall above the root crown) provided by Metro in row or random arrangements or as directed by Metro's project manager. Contractor shall be responsible for transporting plant material from one of Metro's pick up locations, referenced in Section 5 of this Scope of Work, to the project site.

Contractor shall transport, protect, handle and install bare root plants as follows:

Protection of Plant Materials during Transport. Contractor shall be responsible for transporting plant material from Metro's Stafford, Oregon locations to the project site either in fully-enclosed trailers or trucks with canopies. Open-bed trucks may be used only if Contractor covers plant materials with insulating blankets or tarps to protect plant materials from wind damage and freezing. Plant material shall not be transported in heated crew vehicles.

Exhibit 2 of the Scope of Work – Attachment A

Protection of Plant Materials on Project Site. Contractor shall keep plants covered at all times using either light colored or white tarps or insulating blankets and shall protect all plant material from loss, destruction or damage of any kind, including physical injury, freezing, heating or drying. Contractor shall be responsible for all loss, destruction or damage to plant material that occurs from the time Contractor takes possession of the plant material until the plant material is planted. Contractor is responsible for inspecting plants/bags upon pickup to verify plants are in good health.

Handling of Plant Materials during Planting. Contractor shall ensure that plant root systems are in a dripping wet state prior to installation. If necessary, Contractor shall dip the entire root system of all plants in water upon removing the plants from the nursery bag, and shall then place plants directly into a planting bag. Plant material shall be carried into planting areas only in Metro approved planting bags. The quantity of seedlings placed in a planting bag shall be limited to that which allows the removal of individual seedlings without damage to tops or roots. Contractor shall remove only one seedling at a time from a planting bag only after the planting hole has been prepared. Contractor shall not cull plant material or prune roots or stems unless directed by Metro.

Plant Placement. Contractor shall plant bare root plant material at various planting densities as directed by Metro project manager or as indicated in any Work Order that addresses the project. Metro may also specify where certain plant species or associations of plant species are to be planted within each project area. Plant material planted in inappropriate places will be subject to rejection by Metro during inspections. Inappropriate places are places where logs, compacted slash greater than 18 inches in depth, rock outcrops, cobble, gravel, standing water or other media prevent planting tools from making an acceptable planting hole. When an inappropriate place is encountered, Contractor shall plant the plant material in the nearest appropriate location.

Planting Technique. Contractor shall prepare a planting hole that is wide and deep enough to fully suspend the roots of the plant material. Contractor shall suspend the root system near the center of the planting hole, with roots in a near-natural arrangement, at a depth at which the root collar is exposed and the entire root system is covered by soil after filling, packing and leveling. A "near-natural arrangement" means that roots approximate the position they would have when growing in nature, and are not twisted, tangled, compacted, curled, or bent relative to a position that is perpendicular to the ground surface. Each plant shall be set firmly in the ground, with moist soil filled in and placed firmly around the roots. There shall be no air pockets adjacent to or near the roots. Contractor shall level the soil near the plant after planting and firming so that there are no depressions or mounds near the stem.

Metro's Right to Suspend Planting. Metro may suspend planting work if Metro determines that weather conditions could damage plant material even if the material is handled in accordance with this Contract. Metro may also suspend planting work at any time if Metro determines that Contractor is not handling plants or planting in accordance with this Contract.

Planting - Install Container Plants

Contractor shall plant either one gallon or similarly sized container plants provided by Metro in row or other arrangement as directed. Contractor shall be responsible for transporting plant material from one of Metro's pick up locations, referenced in section 5 of this attachment to the Contract, to the project site. Contractor shall transport, protect, handle and install plants as follows:

Protection of Plant Materials. Contractor shall protect all plant material from loss, destruction or damage of any kind, including physical injury, freezing, heating or drying. Plant materials shall not be transported in heated crew vehicles. Contractor shall be responsible for all loss, destruction or damage to plant material that occurs from the time Contractor takes possession of the plant material until the plant material is planted.

Handling of Plant Materials during Planting. Contractor shall carry plants by their containers to project site without damaging stems or leaves. Contractor shall not prune roots or stems.

Plant Placement. Contractor shall plant container plants at various planting densities as directed by Metro or as indicated in any Work Order that addresses the project. Metro may also specify where certain plant species or associations of plant species are to be planted within each project area. Plant material planted in inappropriate places will be subject to rejection by Metro during inspections. Inappropriate places are places where logs, compacted slash greater than 18 inches in depth, rock outcrops, cobble, gravel, standing water or other media prevent planting tools from making an acceptable planting hole. When an inappropriate place is encountered, Contractor shall plant the plant material in the nearest appropriate location.

Planting Technique. Contractor shall prepare a planting hole that is twice as wide and the same depth as the plant root ball. If root bound, Contractor shall break up roots and eliminate any circling roots prior to planting. Each plant shall be set firmly in the ground, with moist soil filled in and placed firmly around the roots. There shall be no air pockets adjacent to or near the roots. Contractor shall level the soil near the plant after planting and firming so that there are no depressions or mounds near the stem.

Metro's Right to Suspend Planting. Metro may suspend planting work if Metro determines that weather conditions could damage plant material even if the material is handled in accordance with this Contract. Metro may also suspend planting work at any time if Metro determines that Contractor is not handling plants or planting in accordance with this Contract.

Planting – Install Plugs

Contractor shall plant herbaceous plugs using picks, dibble sticks, or bare-root planting shovels. Metro project manager will specify the planting density at the time of the planting. Contractor shall be responsible for transporting plant material from one of Metro's pick up locations, referenced in section 5 of this attachment to the Contract, to the project site.

Planting - Harvest Small Pole Cuttings

Contractor shall harvest 18 to 24 inch long pole cuttings from sites indicated by Metro Project manager. Upon harvest, Contractor shall arrange cuttings so that the bottoms and tops are in the same direction and place cuttings bottom end first in bundles of 100 in buckets with water. Cuttings shall be kept on site and covered with light colored tarps or in water at all times until they are planted. Contractor shall harvest no more than one-third of the donor plant's branches.

Planting - Harvest Large Pole Cuttings

Contractor shall harvest 24 to 48 inch long pole cuttings from sites indicated by Metro Project manager. Upon harvest, Contractor shall arrange cuttings so that the bottoms and tops are in the same direction and place cuttings bottom end first in bundles of 100 in buckets with water. Cuttings shall be kept on site and covered with light colored tarps or in water at all times until they are planted.

Planting – Install Small Pole Cuttings

Contractor shall plant 18 to 24 inch long pole cuttings at density indicated by Metro project manager. Contractor shall insert a pole cutting into the ground to a depth equal to two-thirds of its total length. Metro project manager may direct Contractor to install the cuttings vertically, perpendicular to the ground surface, or at another angle. Pole cuttings shall be planted bottom end first. Contractor shall remove and replace any cuttings that are broken, skinned during planting, installed upside down, and/or not installed to the proper depth.

Planting – Install Large Pole Cuttings

Contractor shall plant 24 to 48 inch long pole cuttings at density indicated by Metro Project manager. Contractor shall insert pole cuttings into the ground to a minimum depth of 18 inches. Metro project manager may direct Contractor to install the cuttings vertically, perpendicular to the ground surface, or at another angle. Pole cuttings shall be planted bottom end first. Contractor shall remove and replace any cuttings that are broken, skinned during planting, installed upside down, and/or not installed to the proper depth.

Planting – Apply Mulch with Vehicle Access

Contractor shall apply mulch in the form of wood chips or shavings around each planted plant. Mulch shall be spread in a 16-inch diameter circle to a depth of three (3) inches without covering the plant stem. Metro project manager may change the quantity and kind of mulch material when warranted by site conditions. Metro shall coordinate and pay for the delivery of mulch unless otherwise requested by the Metro Project manager.

Planting – Mark Plants with Bamboo Stakes

Contractor shall install a bamboo stake up to 48-inch in length adjacent to planted trees and shrubs. Stakes shall be driven vertically into the ground at a location four (4) inches from the base of the plant, and to a minimum depth of nine (9) inches. Bamboo stakes shall be installed with the larger diameter end in the ground. Contractor shall be responsible for transporting bamboo stakes from one of Metro's pick up locations, referenced in Section 5 of this attachment to the Contract, to the project site. At the end of each day, Contractor shall re-bundle and load materials into Contractors vehicle, unless directed to do otherwise by the Metro Project manager.

Exhibit 2 of the Scope of Work – Attachment A

Planting – Mark Plants with Flagging Tape

Contractor shall tie a 6-inch piece of flagging to planted trees and shrubs. Flagging tape shall be tied to a lateral branch near the top of the plant. Flagging will be delivered to the site by the Metro Project manager.

Planting – Install Vexar or Equivalent Tube and Bamboo Stakes

Contractor shall position the bottom end of the tube so that it is in full contact with the ground. Contractor shall anchor each plant tube to the ground using two bamboo stakes. Contractor shall weave a vertical stake 48 inches in length through the tube webbing a minimum of four (4) times and insert it into the ground to a minimum depth of nine (9) inches. Bamboo stakes shall be on the inside of the bottom of the tube and installed with the larger diameter end in the ground. Contractor shall further secure the tube using a 24-inch long stake placed diagonally to a depth of six (6) inches and woven twice between the tube and vertical stake. The tube shall be centered on the plant, and shall be installed so that it remains in full contact with the ground when subjected to a moderate upward tug. The maximum allowed lean of the tube is two (2) inches from vertical, measured from the top of the tube.

Contractor shall not damage the plant during tube installation and, if necessary, shall reach into the tube to ensure that branches are in a natural position. Plants with skinned bark, a broken terminal leader, a curled leader inside the tube, or a leader protruding through the side of the tube will be subject to rejection by Metro Project manager. Contractor shall discard and replace stakes broken during installation. Where rocky ground prevents driving the stakes to the full depth on the first attempt, the stake shall be moved to a location where the tube can be driven to the required depth. If soil conditions prevent proper stake installation on many plants throughout a planting site, Contractor shall notify Metro Project manager.

Contractor shall be responsible for transporting bamboo stakes and Vexar tubes from one of Metro's pick up locations, referenced in section 5 of this attachment to the Contract, to the project site at the end of each day, Contractor shall bundle and load materials into Contractor's vehicle, unless directed to do otherwise by Metro Project manager.

Planting - Hourly Planting

Metro may elect to pay hourly for combinations of planting work tasks or hire hourly work on projects where measurements of units are impractical or impossible, or the project requires special planting techniques that are not consistent with typical unit pricing. Additional hourly planting tasks may include but shall not be limited to spreading of straw, installation of specialized planting tubes or wire caging to exclude beavers.

Planting – Additional Delivery Lump Sum Rate

At the request of the Metro Project Manager, Contractor shall pick up and deliver plant materials to the project site. The lump sum rate shall represent the cost for one person to drive (Approximately 20-30 miles round trip) to the specified location, load the materials and return to the project site.

C. Category 3: Mechanical Site Preparation, Seeding and Maintenance

Planting - Machine Broadcast or No Till Drill Seed

Contractor shall apply native seed to project sites using machine seed spreaders or no till drills at a rate determined by Metro project manager (typically between five (5) and 15 pounds per

acre). The seeding equipment shall be subject to the equipment cleaning requirements in Section 19 of this Scope of Work.

Site Prep - Boom Spray

Contractor shall apply a Metro approved herbicide using a tractor, mule, ATV or other equipment in a volume sufficient to adequately cover all target vegetation at the site so that it is wet but not dripping. Metro or its representative must approve the application rate and surfactant prior to work start. Target vegetation may include all vegetation that is not planted by Metro or may be limited to species included on the Metro's Target Species List. Contractor shall be responsible for recognizing and preventing damage to existing native vegetation and/or landscaping vegetation on adjacent land.

Site Prep - Field Flail or Mow

Contractor shall flail or mow target vegetation using a tractor, Bobcat or other mowing equipment. Contractor is responsible for recognizing and preventing damage to existing native vegetation and/or landscaping vegetation on adjacent land. Mowing shall not be performed when the ground conditions are such that the equipment is damaging the terrain or causing erosion. The mowing equipment shall be subject to the equipment cleaning requirements in Section 19 of this Scope of Work.

Site Prep - Field tilling or disc harrow

Contractor shall till or disc using standard farm equipment. Metro project manager shall indicate depth of till or disc prior to work beginning.

Maintenance – Field Mowing Between Planting Rows or Clusters of Plants

Contractor shall flail or mow target vegetation using a tractor, Bobcat or other mowing equipment between six (6) and nine (9) foot planting rows or plantings in clusters in a field. Contractor shall mow to within one (1) foot of edge of cluster plantings. Contractor is responsible for recognizing and preventing damage to existing native vegetation and/or landscaping vegetation on adjacent land. Mowing shall not be performed when the ground conditions are such that the equipment is damaging the terrain or causing erosion. The mowing equipment shall be subject to the equipment cleaning requirements in Section 19 of this Scope of Work.

Maintenance – Field Haying

Contractor shall cut, bale and haul hay to an on-site location using standard farm equipment. Contractor shall stack bales at a site marked by Metro's project manager. Field Haying shall not be performed when the ground conditions are such that the equipment is damaging the terrain or causing erosion. The haying equipment shall be subject to the equipment cleaning requirements in section 19 of this Scope of Work.

7. Use of Herbicide

The specific amount of herbicide used will be in accordance with the label requirements. Unless otherwise directed by Metro, herbicides shall not be applied when wind speed is greater than five (5) mph or when the National Weather Service forecast calls for precipitation within 24 hours. There shall be no over-spray of herbicides onto native vegetation. Where necessary, Contractor shall manually or mechanically clear target vegetation away from native vegetation to

protect native vegetation during spraying. In all cases, the spray mixture shall contain a colorant in the amount of one (1) percent or greater of the mixture. Contractor shall post Metro approved public notice signs with legal re-entry periods at all public access points prior to spraying and leave signs on-site until re-entry periods are satisfied. Contract shall remove signs when re-entry periods are satisfied.

Metro shall reimburse Contractor for the cost of all herbicide, surfactants and indicator dye used in herbicide application work tasks under Section 6 of Scope of Work. Terms of payment for herbicides are more fully detailed below in Section 13 of this Scope of Work. Contractor shall submit copies of herbicide application records for all Herbicide work with each invoice to Metro.

Contractor shall maintain appropriate licensing and shall present copies of operator, applicator and trainee licenses at Metro's request. Metro is not responsible for payment to Contractor in the event that Contractor fails to provide documentation upon request.

8. Disposal of Waste Material

At the conclusion of work each day, Contractor shall gather and lawfully dispose of all empty boxes, bags, damaged containers and plug trays, garbage and other waste material in a manner acceptable to Metro. Contractor shall return plant containers in acceptable working condition to the designated Metro location.

9. The Role of the Metro Project manager

Metro and Contractor acknowledge that certain elements of site work in the environmental restoration field are not easily addressed in written plans or designs, and are better addressed in the field while work is underway.

Accordingly, Metro shall appoint a Project Manager to make decisions concerning plant placement, planting technique, employment of specific site preparation and maintenance techniques, the timing of haying, locations for slash piles and other issues. The parties anticipate that most decisions made by the Project Manager will not affect Contractor's costs or the terms of the work in this Contract or Work Orders that addresses the project.

Metro's use of a Project Manager to identify work elements on the project site and monitor field work will not relieve Contractor of responsibility for complying with the terms of this Contract or any amendment to this Contract.

10. Inspection of Work/Acceptance

Metro's Project Manager or designated representative will perform inspection surveys for compliance with all specifications on all work items as a basis for acceptance, payment, and recommendations for adjustment in work quality. Inspected units of work must comply with all applicable specifications.

Inspections shall identify any deviations from the specifications. Any such deviation shall be corrected immediately. Inspections shall primarily be visual. When the site does not appear to meet contract specifications, inspection data shall be gathered from well-distributed, randomly

Exhibit 2 of the Scope of Work – Attachment A

selected plots of various sizes with a total sample size of at least one (1) percent of each item in every project area.

Metro's Project Manager or designated representative will also inspect project sites up to 21 days (up to 42 days – 6 weeks for certain winter treatments) following herbicide application to check for effectiveness and damage to non-target vegetation. Metro's Project Manager or designated representative may, at their discretion, inspect project areas as a whole after they are completed. Contractor is encouraged to observe these inspections while they are underway.

A. Satisfactory Work Quality

For all items on each project area, Metro or its representatives will assess a work quality percentage by dividing acceptable units inspected by total work units inspected. A minimum work quality standard of 90 percent is required for all work items.

B. Unsatisfactory Work Quality

Work quality below 90 percent will be considered unsatisfactory. Based on inspection results, if work quality is determined to be unsatisfactory, Contractor shall be required to rework the unit of work until satisfactory work quality is achieved. Once 90 percent work quality is attained, full payment will be made in accordance with Section 13 of this Scope of Work.

Based on inspection results, if the work quality percentage falls below 90 percent, Metro will immediately notify Contractor in writing and instruct Contractor to improve the quality of the work. If the quality of the work is not raised to a satisfactory and acceptable level within two (2) consecutive workdays after written notification, Metro may cancel the Work Order. If the work is seriously or chronically deficient, Contractor recognizes that Metro may elect to terminate the Contract in accordance with Article V.

11. Notification of Subcontracting

Contractor shall notify the Metro upon entering into any subcontracting arrangement. This notification shall include at a minimum:

- i. Name, address, telephone number of subcontractor;
- ii. Date upon which the subcontract was established and its duration;
- iii. List of tasks from the Scope of Work that will be subcontracted;
- iv. Copies of subcontractor's representative authority (i.e. Oregon Farm/Forestry/Landscape Contractor's License, Farm Labor Contractor Certificate of Registration) and liability insurance certificate(s); and
- v. Copies of Oregon Commercial Operator License, Oregon Commercial Applicator License, and Trainee Licenses, if applicable.

12. Work Acceptance and Invoices

~~Contractor shall invoice Metro for completed work following Metro Project manager's acceptance of work. For a given work site, Metro shall determine whether to accept work after each treatment or a series of treatments. Metro shall not be obligated to accept and pay for work that contains material deficiencies as defined in Section 10 of this Scope of Work.~~

Contractor invoices shall be based on work units completed and accepted and shall include the following information:

- Contractor Name,
- Invoice Number,
- Invoice Date,
- Project Name (if applicable),
- Site Name,
- Contract Number,
- Work Order Number,
- Work Description with Work Tasks Matching the description contained in section 6 of this Scope of Work,
- Completion Date,
- Unit Price,
- Number of Units,
- Extended Price,
- Herbicide Expenses with Mark Up, and
- Invoice Total.

All completed work should be invoiced to Metro within fourteen (14) days of completion. Contractor's failure to (a) invoice Metro within such 14-day period or (b) include all required information will be just cause for Metro withholding payment. Invoices not received within sixty (60) days of work completion will be deemed waived by Contractor, time-barred, and will not be considered for payment by Metro.

Metro may require the contractor to submit invoices by e-mail. Upon notification from Metro, Contractor agrees to submit all invoices using Metro's updated process.

13. Payment

Metro's payment for Contractor's work shall be based on work units completed, inspected and accepted. Payment shall be made at the unit prices as set forth on Exhibit 1 to Attachment A - Scope of Work, unless otherwise provided for in a specific Work Order.

Metro shall reimburse Contractor at cost plus 10% for herbicide, surfactants and indicator dye that Contractor uses while performing herbicide application services on Metro projects. Contractors shall add a separate line item on each invoice for herbicide reimbursement. Invoices for herbicide application without accompanying Pesticide Application Record will not be paid until the records are provided. At Metro's request, Contractor shall submit purchase receipts documenting cost incurred for purchase of herbicide, surfactants and indicator dye.

Contractor shall perform the work for a maximum price not to exceed ONE HUNDRED FIFTY THOUSAND AND NO/100 DOLLARS (\$150,000.00).

The maximum price includes all fees, costs and expenses of whatever nature. Each of Metro's payments to Contractor shall equal the percentage of the work Contractor accomplished during the billing period. Contractor's billing statements will include an itemized statement of work done and expenses incurred during the billing period, and

will be sent to Metro, Attention: Accounts Payable, 600 NE Grand Avenue, Portland, OR 97232-2736. Metro will pay Contractor within 30 days after invoice date or within 15 days after invoice approval.

14. Damages to Native Vegetation

Contractor acknowledges that Metro incurs damages when native vegetation is damaged or destroyed by Contractor. Such damage includes the cost of plant material, additional Contract administration by Metro employees, and the loss of plant growth that would enhance resource values. As the extent of these damages is often difficult to determine, Contractor hereby agrees to pay fixed, agreed, and liquidated damages at the rate of \$5.75 per plant for every native plant destroyed by Contractor in excess of five (5) percent of the native plants within the project area plots inspected under Section 10 of this Scope of Work.

15. Damage to Real Property

In accordance with Article IV of the Contract, in the event Contractor causes damage to Metro property or neighboring properties while engaging in activities allowed under this Scope of Work, Contractor shall be responsible for correcting the situation and incur all costs associated with such corrective actions.

16. Work Hours

All field work shall be performed Monday through Friday during daylight hours unless Metro project manager grants permission to do otherwise. Contractor shall obey all applicable noise ordinances in completion of work.

17. Native Plant Material Collection

Contractor shall not collect plant materials from the project site unless contracted to under this Contract or written permission has been granted by Metro's Project manager or representative. All plant materials collected under this Contract are the property of Metro.

18. Equipment Cleaning

Metro may require mechanized equipment to be cleaned (pressure washed or blown with pressurized air) and inspected before moving into the natural area to reduce the risk of spreading noxious weed seeds onto disturbed areas. Equipment inspection will be arranged with the Metro project manager and conducted at a location not on the project area that is mutually agreed to by the Metro project manager and the Contractor.

19. Ownership of Woody Biomass

All woody biomass accumulated from woody vegetation removal operations is the property of Metro.

20. Fueling and Equipment Repair

No fuel, motor oil, hydraulic fluid, grease, or any other petroleum- or chemically-based compounds associated with operating motor vehicles or mechanized equipment shall be stored on-site. These materials shall be transported to the site on an as-needed basis and contained on the bed of a truck or utility trailer. For any refueling that must be done over open ground, a spill pan or sorbent pad shall be placed below the fueling location.

No refueling or maintenance shall take place in or near on-site wetlands, wet prairie, intermittent stream channels, or open water. All used sorbent pads or spill pans must be removed from the site at the end of each day. Maintenance shall only occur within the staging areas designated by the Metro Project manager. Equipment furnished shall be inspected for any leakage of petroleum products. Excessive leakage shall be a basis for issuing an immediate shutdown of the operation.

21. Fire Protection Requirements

During the closed fire season, Contractor completing work tasks under this Contract shall adhere to all Oregon Forest Law (ORS) and Oregon Administrative Rules (OAR) for fire protection. In the event a Fire Watch is required Contractor shall be limited to invoicing for one person at an hourly labor rate, for the hours required for the fire watch.

If a fire occurs, the Contractor shall promptly report the fire to 911 and cooperate in the control and suppression of the fire.

EXHIBIT 1

UNIT PRICES

VEGETATION MANAGEMENT PUBLIC CONTRACT

Category 1: Manual Site Preparation and Maintenance

Work Task	Unit	Unit Price
Site Prep - Backpack Spot or Area Spray	Acre	\$185.00
Site Prep - Hack and Squirt	Hr	\$31.00
Site Prep – Cut Stump	Hr	\$31.00
Site Prep - Hand Mow/Cut	Acre	\$325.00
Site Prep - Push Mow	Acre	\$250.00
Site Prep - Cut Blackberry/Brush	Acre	\$475.00
Maintenance - Hand Mow/Cut	Acre	\$275.00
Maintenance - Backpack Spot or Area Spray	Acre	\$165.00
Maintenance - Backpack Ring or Row Spray	Acre	\$165.00
Maintenance - Hourly Spray	Hr	\$28.00
Maintenance - Hourly Cut	Hr	\$31.00
Maintenance - Hourly Labor	Hr	\$22.00

Category 2: Planting

Work Task	Unit	Unit Price
Planting - Scalp	Each	\$0.22
Planting - Hand or Crank Broadcast Seed	Hr	\$22.00
Planting - Harvest Seed	Hr	\$22.00
Planting - Install Small Bare Root Plants	Each	\$0.24
Planting - Install Large Bare Root Plants	Each	\$0.38
Planting - Install Container Plants	Each	\$0.79
Planting - Install Plugs	Each	\$0.18
Planting - Harvest Small Pole Cuttings	Each	\$0.16
Planting - Harvest Large Pole Cuttings	Each	\$0.32
Planting - Install Small Pole Cuttings	Each	\$0.14
Planting - Install Large Pole Cuttings	Each	\$0.26
Planting - Apply Mulch with Vehicle Access	Each	\$0.18
Planting - Mark Plants with Bamboo Stakes	Each	\$0.11
Planting - Mark Plants with Flagging Tape	Each	\$0.10
Planting - Install Vexar or Equivalent Tube and Bamboo Stakes	Each	\$0.34
Planting - Hourly Planting	Hr	\$28.00
Planting – Additional Delivery Lump Sum Cost	Each	\$75.00

Category 3: Mechanical Site Preparation, Seeding, and Maintenance

Work Task	Unit	Unit Price
Planting - Machine Broadcast or Drill Seed	Acre	\$90.00
Equipment Type # 1: 30 hp tractor with seed spreader/drill	Hr	\$75.00
Equipment Type # 2: ATV with seed spreader	Hr	\$50.00
Mobilization	Each	\$75.00
Site Prep - Boom Spray	Acre	\$75.00
Equipment Type # 1: 30 hp tractor with 55 gallon boom spray	Hr	\$75.00
Equipment Type # 2: ATV with 25 gallon boom spray	Hr	\$50.00
Mobilization	Each	\$75.00
Site Prep - Field Flail or Mow	Acre	\$90.00
Equipment Type # 1: 30 hp tractor with mower	Hr	\$75.00
Mobilization	Each	\$75.00
Site Prep - Field Tilling or Disc Harrow	Acre	\$120.00
Equipment Type # 1: 30 hp tractor with disk tiller	Hr	\$75.00
Mobilization	Each	\$75.00
Maintenance - Field Mowing between Planting Rows or Clusters of Plants	Acre	\$90.00
Equipment Type # 1: 30 hp tractor with mower	Hr	\$75.00
Mobilization	Each	\$75.00

TARGET SPECIES LIST

Plant Type	Species Code	Latin Name	Common Name
Forb	ALPE	Alliaria petiolata	Garlic Mustard
Forb	ARMI	Arctium minus	Burdock
Forb	BRCAM	Brassica campestris	Field Mustard
Forb	CEDI	Centaurea diffusa	Diffuse Knapweed
Forb	CEMA	Centaurea maculosa	Spotted Knapweed
Forb	CENI	Centaurea nigra	Black Knapweed
Forb	CIAR	Cirsium arvense	Canada Thistle
Forb	CIVU	Cirsium vulgare	Common Thistle
Forb	CLVI	Clematis vitalba	Traveler's Joy
Forb	COMA2	Conium maculatum	Poison Hemlock
Forb	COAR	Convolvulus arvensis	Field Morning Glory
Forb	DISY	Dipsacus sylvestris	Teasel
Forb	GAVE	Galium aparine	Clevers Bedstraw
Forb	GERO	Geranium robertianum	Herb Robert
Forb	HEHE	Hedera helix	English Ivy
Forb	HEMA	Heracleum mantegazzianum	Giant Hogweed
Forb	IRPS	Iris pseudoacorus	Yellow Flag Iris
Forb	LOCO1	Lotus corniculatus	Birdsfoot Trefoil
Forb	LYSA	Lythrum salicaria	Purple Loosestrife
Forb	POCU	Polygonum cuspidatum	Japanese Knotweed
Forb	POSA	Polygonum sachalinense	Giant Knotweed
Forb	SEJA	Senecio jacobaea	Tansy Ragwort
Forb	SODU	Solanum dulcamara	Bittersweet Nightshade
Grass	ALPR	Alopecurus pratensis	Meadow Foxtail
Grass	BAMB	Bamboo	Bamboo
Grass	BRSY	Brachypodium sylvaticum	False Brome
Grass	FEAR	Festuca arundinacea	Tall Fescue
Grass	PAST	Pasture Grass	Pasture Grass
Grass	PHAR	Phalaris arundinacea	Reed Canarygrass
Grass	TURF	Turf Grass	Turf Grass
Shrub	CYSC	Cytisus scoparius	Scot's Broom
Shrub	DALA	Daphne laureola	Spurge Laurel
Shrub	ILAQ	Ilex aquifolium	English Holly
Shrub	PRLA	Prunus laurocerasus	Laurel
Shrub	ROSP	Rosa ssp	Non-native Roses
Shrub	RULA	Rubus laciniatus	Evergreen Blackberry
Shrub	RUDI	Rubus armenicus	Himalayan Blackberry
Tree	CRMO	Crataegus monogyna	European Hawthorn
Tree	CROX	Crataegus oxycantha	English Hawthorn
Tree	PRSP	Prunus ssp.	Non-native Cherries
