## **PUBLIC NOTICE OF OPPORTUNITY TO COMMENT ON:**

Application of GreenWay Recycling, LLC to renew its Metro solid waste facility license to operate a mixed non-putrescible (“dry”) waste material recovery facility

Written comments regarding this application may be submitted to Metro until 5 p.m. Wednesday, February 3, 2016.

**Notice Issued:** January 4, 2016

**Applicant:** GreenWay Recycling, LLC

### **Name and location of facility:**

GreenWay Recycling, LLC  
4135 NW St. Helens Road  
Portland, Oregon 97210

### **Description of facility/application:**

GreenWay Recycling, LLC has submitted an application seeking to renew its current Metro solid waste facility license to operate a material recovery facility. GreenWay Recycling accepts and processes mixed dry waste to recover and recycle marketable materials. The facility also accepts source-separated materials including yard debris, wood waste, and asphaltic roofing shingles. The facility has been licensed by Metro to perform material recovery since 2007.

The applicant seeks to renew the same authorizations of its current license and perform the same facility activities with the exception of no longer grinding wood during the months of May-September unless an enclosure is built in which to manage the load-out of ground wood. This is to address concerns about wood dust.

According to the city of Portland, the subject property is zoned Heavy Industrial (IH). The proposed use is allowed outright in this zone.

### **For more information:**

The applicant’s current solid waste facility license (No. L-109-12) and renewal application are available for review online at <http://www.oregonmetro.gov/news/public-notice-opportunity-comment-greenway-recycling-llc-renewal-solid-waste-facility-license>. Or, please contact Hila Ritter at (503) 797-1862 to view these documents.

### **Where to send comments:**

Metro will accept comments regarding this application by mail, fax, and e-mail. Comments should be addressed to Hila Ritter, Solid Waste Authorization Coordinator.
