

Songs from Sky Orbison and the Earth Protectors

Earth Protectors

Music by Patrick Short
Lyrics by Andrew Berkowitz

Who keeps the trees alive and green?
Who keeps the water so fresh and clean?
Who looks really cool in her time machine?
Sky Orbison and the Earth Protectors

Who teaches us to make less waste?
Who saves the planet for the human race?
Who's really smart, with most excellent taste?
Sky Orbison and the Earth Protectors

We'll help you reduce
We'll help you reuse
We'll help you recycle
Check out my cool shoes

Sky Orbison and the Earth Protectors
Sky Orbison and the Earth Protectors
Sky Orbison, protecting the Earth

Use it Again

Music by Patrick Short
Lyrics by Andrew Berkowitz

Draw your brother's picture
And give him big buckteeth
Write a friend a letter
And draw a heart beneath
No matter what you're writing
Help out the earth with pride
Just flip the paper over
And use the other side

Chorus (four times):
Use it again

You fall down on the playground
And rip your favorite pants
You stain your shirt with grape juice
While you do your funky dance

Instead of buying new clothes
Why not buy something used
'Cause vintage style is always in
And the earth will be enthused

Chorus (eight times):
Use it again

Making Footprints

Music by Patrick Short
Lyrics by Andrew Berkowitz and Patrick Short

There's just one earth
There's just one you
So what can just one person do?
How do we do it?
Protect the earth

We're making footprints
We're walking tall
You've got a footprint
Keep it small
You want to use as little as possible

You mean to say
It starts with me
And the choices that I make today
My footprint, my footprint (Oh, my footprint)
Is it up to me?

It starts with you
Then others see
How we can all tread lightly
There's just one earth
Only one you and one me

It's time to act (It's time to act)
To take a stand (And help the land)
Protect the earth (For what it's worth)
Do what we can (It's in our hands)
We're making footprints
Keep them small
We're making footprints
Keep them small

Reduce, Reuse, Recycle!

Music by Patrick Short
Lyrics by Andrew Berkowitz

When you buy a snack
In a tiny pack
You're making a lot of trash

Instead be wise
Buy a bigger size
And make our resources last

Chorus:
Reduce, reuse, recycle
Reduce, reuse, recycle

It's not that tough
To use less stuff
And keep our future green

Refill that drink
From the kitchen sink
Make that your new routine

Chorus (four times):
Reduce, reuse, recycle
