

The Lone Fir Pioneer Cemetery work group

In February 2008, Metro convened the Lone Fir Pioneer Cemetery work group to help shape the future of the cemetery and a site plan for Block 14, previously the location of the Morrison Building. Comprised of members from the Friends of Lone Fir Cemetery, the Buckman Community Association, the Chinese Consolidated Benevolent Association, the Oregon Commission on Historic Cemeteries and Portland Fire and Rescue, the Lone Fir work group has been working with Metro staff and a consultant team lead by Lango Hansen Landscape Architects. Together they will develop design options that will highlight the cemetery's presence in the city as a historic, cultural and natural park.

Work group members

- Becky Corcoran, Reed College
- Stan Clarke, former Oregon Commission on Historic Cemeteries commissioner
- Jason Lim, Asian Reporter
- Susan Lindsay, Buckman Community Association chair
