This packet contains an application for a Metro Solid Waste Facility Franchise. You may also want to review the relevant sections of the Metro Code. Metro Code Chapter 5.01 identifies which solid waste facilities and activities require a Metro franchise. You can access the Metro Code via the Metro web site at www.oregonmetro.gov/metro-code.

Generally, a solid waste facility within the Metro boundary may operate only if Metro authorizes it under a License or Franchise.

Metro staff will review an application for completeness within 15 business days of receipt and notify the applicant whether their application is deemed to be complete. If an application is incomplete, Metro will notify the applicant as to what additional information is required.

Application for a new Solid Waste Facility Franchise

An applicant seeking a new Metro Solid Waste Facility Franchise must first participate in a pre-application conference prior to submitting a final application form. The purpose of the pre-application conference is for Metro to obtain a description of the proposed solid waste facility and provide the applicant with information regarding the applicable requirements for the proposed operation. The conference also provides the applicant with an opportunity to discuss the application process and to identify any potential issues specific to its proposal. An applicant should prepare for the pre-application conference by reviewing the application forms and drafting answers before the conference. To schedule the pre-application conference, contact Metro's Solid Waste Compliance and Cleanup Division at 503-797-1835.

After completing the pre-application conference, an applicant seeking a new franchise must submit to Metro a completed *Solid Waste Facility Franchise Application* form and provide all additional information as required. Metro will generally approve or deny a new franchise within 120 days after Metro deems the application to be complete. The fee for filing a franchise application is \$500. See Metro Code Chapter 5.01 for more information regarding the issuance of franchises.

Renewal of an Existing Franchise

A franchisee seeking to renew an existing franchise without substantive changes to the current authorization must submit a completed *Solid Waste Facility Franchise Application* form and provide all additional information as required, unless Metro staff directs otherwise. A franchisee may submit a franchise renewal application not less than 120 days before the current franchise expires. If a franchisee fails to timely submit a renewal application, the franchisee's authority to operate may lapse. Additionally, the Chief Operating Officer is not obligated to renew a franchise earlier than the expiration date of the existing franchise even if the franchisee files a renewal application more than 120 days before the existing franchise expires. The fee for filing a franchise renewal application is \$500. See Metro Code Chapter 5.01 for more information regarding the renewal of franchises.

Change of Authorization to an Existing Franchise

A franchisee seeking a change in authorization of an existing franchise (other than a renewal) must submit to Metro a completed *Solid Waste Facility Franchise Application* form and provide all additional information as required unless Metro staff directs otherwise. The applicant cannot implement the requested change of authorization until Metro approves it in writing. The fee for filing a change of authorization application is \$100. See Metro Code Chapter 5.01 for more information regarding changes of authorization for franchises. Metro may require the applicant to apply for a new license if there is a significant change in the types of solid waste accepted or activities performed at a facility.

Transfer of Ownership or Control of an Existing Franchise

A franchisee seeking to transfer ownership or control of an existing franchise must submit to Metro a completed *Solid Waste Facility Franchise Application* form and provide all additional information as required unless Metro staff directs otherwise. The franchisee may not transfer ownership or control of an existing franchise until Metro approves it in writing. See Metro Code Chapter 5.01 for more information regarding transfer of ownership for franchises.

PART 2 – Standard Attachments to Franchise Application (Franchise application continued)

- Metro requires the following attachments (Attachments A – I) for new applications in order for Metro to deem a franchise application complete. The applicant must clearly label each attachment.
- Application submittals such as facility design, building plans, site plans and specifications must be prepared, as appropriate, by persons licensed in engineering, architecture, landscape design, traffic engineering, air quality control, and design of structures.
- An applicant seeking to renew an existing franchise without substantive changes to the current authorization may defer to previously submitted documents if Metro has the most current version of all attachments (Attachments A- I) on file, unless otherwise directed by Metro staff. The date of the document on file with Metro is required for each deferred attachment. To confirm that Metro has current documentation on file, please contact Metro's Solid Waste Compliance & Cleanup Division at (503) 797-1835 or via email at SWCC@oregonmetro.gov.

ATTACHMENT A: SITE PLAN

The applicant must submit a facility site plan that includes maps or drawings showing the location of the facility and the site layout according to scale using a scale no smaller than one inch being equivalent to 30 feet. Applicant must provide the location of the following items on the site plan:

- (1) Boundaries of the facility.

Facility Franchise Application

Metro

600 NE Grand Ave.
Portland, OR 97232
503-797-1835

(2)	Property boundaries, if different.
(3)	All buildings on the property (existing and proposed) and other pertinent information with respect to the operation of the facility, to include: a) scale and scale house location b) fencing and gates c) access roads d) paved areas e) vegetative buffer zones and berms f) sorting line and other major materials recovery equipment g) intake, processing, and product/by-product storage
(4)	All receiving, processing, reload and storage areas, as applicable, for solid waste, source-separated recyclable materials, yard debris, recovered materials, products/by-products, waste residuals, exterior stockpiles, hazardous waste, and other materials.
(5)	All exterior material stockpile footprints, material types stored outside, and maximum height of each stockpile.
(6)	Water sources for fire suppression.
(7)	Load checking areas.
(8)	Storage areas for the temporary containment of prohibited waste that the facility inadvertently receives, while awaiting proper removal or disposal of the prohibited waste. The facility must cover and enclose the containment areas and construct them in a manner to prevent leaking and contamination.
(9)	Identification of on-site traffic flow patterns.
(10)	Facility signage. Facility signs must: a) display all of the information required by Metro b) be posted at all public entrances to the facility; and c) conform with local government signage regulations.
(11)	The location of all commercial and residential structures within a one mile radius of the composting facility, identified on a map or aerial photograph. (Compost facility only).
(12)	The prevailing wind direction, by season, identified on a map or aerial photograph. (Compost facility only).

ATTACHMENT B: FACILITY DESIGN PLAN

The applicant must submit a facility design plan to address the following:

- (1) An applicant seeking a franchise must submit a written descriptions of the following:
 - a) Facility overview.
 - b) Facility design and technology.
 - c) Buildings and major equipment (existing and proposed).
 - d) Construction timeline (as applicable)
 - e) Types of wastes to be processed.
 - f) Residuals management
- (2) A Compost/Anaerobic Digestion/Fermentation facility must submit a written description of the following: (in addition to the items listed above in Subsection 1)
 - a) Feedstock receiving procedures.
 - b) Feedstock pretreatment and contaminant removal procedures and equipment.
 - c) Processing: digestion process and methane recovery, fermentation or composting process.
 - d) Dewatering and liquids management (as applicable).
 - e) Digestate fiber management (as applicable).
 - f) Pathogen reduction / control procedures (as applicable).
 - g) Biogas storage, conditioning and power and/or fuel generation (as applicable).
 - h) Monitoring, quality control and testing procedures.

Facility Franchise Application

Metro

600 NE Grand Ave.
Portland, OR 97232

- (3) Dust, airborne debris and litter.
- a) Submit a proposed design or existing design plan providing a roofed structure enclosed on at least three sides and an impervious surface (e.g. asphalt, concrete) for the tipping floor, processing (sorting) areas, storage areas and reloading areas.
 - **Compost facility only:** Also, provide locations for compost/curing piles/windrows, digestion, fermentation, aeration systems including bio-filters or enclosed structures to prevent odors from being detected offsite.
 - b) Describe control measures to prevent fugitive dust, airborne debris and litter. Describe how the facility design will provide for shrouding and dust prevention for the receiving area, processing area, storage area, reload area, and all waste processing equipment and all conveyor transfer points where dust is generated.
 - c) Describe any additional facility design measures and procedures for the control of odor, dust, windblown materials, airborne debris, litter and for the handling of the waste and waste by-products in the case of major processing facility breakdown.

- (4) Facility capacity.
- a) Provide engineering plans, reports and specifications to document that the size and configuration of the facility grounds, building and equipment, including the facility layout, drainage structures, building design, and major facility equipment, processing systems and storage areas are of sufficient capacity to accommodate seasonal throughput of all solid wastes and materials that will be delivered to and generated by the facility.
 - b) Provide the estimated capacity (cubic yards and tons) of the facility storage area(s) for incoming solid waste waiting to be processed, the estimated capacity (cubic yards and tons) for storage of recovered materials, and the estimated capacity (cubic yards and tons) for storage of processing residual.

- (5) Adequate vehicle accommodation.
- Provide documentation to demonstrate that the facility will provide adequate on-site areas at the facility's entrance, scales, loading and unloading points and exit points to allow safe queuing off the public roads and right-of-way given the number and types of vehicles expected to use the facility during peak times.

- (6) Water contaminated by solid waste and solid waste leachate.
- Submit a DEQ (or equivalent) approved plan with pollution control measures to protect surface and ground waters, including runoff collection and discharge and equipment cleaning and washdown water.

ATTACHMENT C: OPERATING PLAN

The applicant must submit a proposed facility operating plan for Metro review and approval. The applicant must amend the plan if subject to any additional elements required in the franchise - if one is approved and issued. The operating plan must include at a minimum, a detailed description of:

- (1) Types of solid wastes the facility will accept.
- (2) Methods that the facility will use to measure and keep records of incoming materials at the facility.
- (3) A detailed description of how you will distinguish and manage loads of incoming materials.
- (4) Procedures for inspecting loads including:
 - a) Procedures for inspecting incoming loads for the presence of prohibited or unauthorized wastes.
 - b) A set of objective criteria for accepting and rejecting loads.
 - c) An asbestos testing protocol for all material that appears as if it may contain asbestos.
- (5) Procedures for processing and storage of loads including:
 - a) Processing of all authorized materials. Include separate descriptions for processing putrescible waste, non-putrescible waste, and source-separated materials – including any food waste and/or food waste mixed with yard debris. Include the material recovery methods and equipment to be used on site (e.g., pre-processing, sorting lines, hand picking, magnets, etc.)
 - b) Reloading and transfer of authorized solid wastes.
 - c) Managing stockpiles.
 - d) Storing authorized materials.
 - e) Minimizing storage times and avoiding delay in processing and managing of all authorized materials including recovered materials.
- (6) General markets for the materials recovered at the facility.
- (7) Procedures for rejecting, managing, reloading and transporting to appropriate facilities or disposal sites any prohibited or unauthorized wastes discovered at the facility including:
 - a) Hazardous wastes.
 - b) Other prohibited materials (e.g., unauthorized waste, putrescible waste, special waste).
 - c) Procedures and methods for notifying generators not to place hazardous wastes or other prohibited wastes in drop boxes or other collection containers destined for the facility.

- (8) Procedures for rejecting or managing loads of food waste that are contaminated with plastic or other non-biodegradable wastes. The operating plan must describe procedures for rejecting, managing, reloading and transporting the following to appropriate facilities or disposal sites:
- a) Loads contaminated with plastics and other non-biodegradable waste.
 - b) Processed material that due to concentrations of contaminants cannot be further processed or marketed and must be disposed.
- (9) Procedures for odor prevention. The operating plan must establish procedures for preventing all objectionable odors for being detected off the premises of the facility including:
- a) A management plan that the facility will use to monitor and manage all objectionable odors of any derivation including malodorous loads delivered to the facility.
 - b) Procedures for receiving and recording odor complaints, immediately investigating any odor complaints to determine the cause of odor emissions, and remedying promptly any odor problem at the facility.
- (10) Procedures for emergencies. The operating plan must describe procedures that the facility will follow in case of fire or other emergency.
- (11) Procedures for preventing and controlling nuisances, including noise, vectors, dust, litter, and odors. Including a description of how the facility will encourage delivery of waste in covered loads.
- (12) Procedures for fire prevention, protection, and control measures used at the facility.
- (13) Procedures for pathogen reduction and pathogen testing on end products and by-products (as applicable).

ATTACHMENT H: OTHER REQUIRED PERMITS

The following information must be provided:

A copy of any required permit, license or franchise that a governing body or agency (whether federal, state, county, city or other) has granted or issued to the applicant (not including materials required by Attachment G). If the governing body or agency has not yet issued the required permit, license or franchise, the applicant must provide a copy of the application it submitted. Metro may also request copies of correspondence pertaining to any required permit, license or franchise.

FRANCHISE RENEWAL APPLICANTS ONLY:

☐ By checking this box, I certify that to the best of my knowledge, all other required permits on file with Metro dated _____ are the most current and accurate version of these documents.

ATTACHMENT I: CLOSURE PLAN AND FINANCIAL ASSURANCE

The applicant must submit the following information:

- (1) If DEQ requires a closure plan and financial assurance, the applicant must include copies of these documents with the application per Attachment G.
- (2) If DEQ does **not** require a closure plan for the facility, attach a closure document describing closure protocol and associated costs. Closure means those activities associated with restoring the site to its condition before the applicant engaged in the franchised activity. Closure may include, but is not limited to, removal of all on-site solid waste stockpiles accumulated after Metro issued a Metro Solid Waste Facility Franchise. The closure protocol is the written protocol that specifies the activities required to properly close the facility and cease further solid waste activities.

Facility Franchise Application

Metro

600 NE Grand Ave.
Portland, OR 97232
503-797-1835

- (3) If DEQ does **not** require any financial assurance for the costs of closure of the facility, applicant must attach proof of financial assurance for the costs of closure of the facility. Cost of closure means the costs associated with restoring the site to its condition before the applicant engaged in the franchised activity.

These costs may include but are not limited to:

- a) The cost to load and transport accumulated solid waste stockpiles to an authorized disposal site or recycling facility;
- b) The cost to "tip" the waste at an authorized landfill or recycling facility; and
- c) Other related costs such as additional disposal costs associated with restoring the site.

Examples of acceptable forms of financial assurance include, but are not limited to, the following: surety bond, irrevocable letter of credit, closure insurance, escrow account.

If the DEQ does not issue a permit or require financial assurance, then Metro may waive the requirement for financial assurance if the applicant provides written documentation demonstrating that the cost to implement the closure plan will be less than \$10,000.

FRANCHISE RENEWAL APPLICANTS ONLY:

☐ By checking this box, I certify that to the best of my knowledge, the closure plan on file with Metro dated _____ is the most current and accurate version of this document.

PART 3 – Standard Attachment to Franchise License Application (Franchise application continued)

In accordance with Metro Code Chapter 5.01, Metro considers the following factors to determine whether to issue a solid waste facility franchise. To the extent known by the applicant, please provide any supplemental information about these factors that you want Metro to consider as part of the application.

- 1) Whether the proposed facility and activities will be consistent with the Regional Solid Waste Management Plan.
- 2) The effect that the proposed facility would have on the cost of solid waste disposal and recycling services for the citizens of the Metro region.
- 3) Whether the proposed facility would adversely affect the health, safety and welfare of Metro's residents.
- 4) Whether the proposed facility would adversely affect nearby residents, property owners or the existing character or expected future development of the surrounding neighborhood.

Facility Franchise Application

Metro

600 NE Grand Ave.
Portland, OR 97232
503-797-1835

- 5) The compliance history of the applicant and whether the applicant will comply with all of the requirements and standards of Metro Code Chapter 5.01, and other applicable local, state, and federal laws rules, regulations, ordinances, orders, and permits pertaining in any manner to the proposed franchise.

PUBLIC NOTICE AND CONFIDENTIAL INFORMATION

This application and all of the supporting documentation for the proposed solid waste facility is subject to Metro's public notice procedures. Metro will notify and provide the public with an opportunity to review and comment on the proposed application. The public notice may include, but is not limited to, posting the complete application on Metro's website.

The applicant may identify as confidential any reports, books, records, maps, plans, income tax returns, financial statements, contracts and other similar written materials of the applicant that are directly related to the proposed application and that are submitted to or reviewed by Metro. The applicant must prominently mark any information that it claims confidential with the mark "CONFIDENTIAL" before submitting the information to Metro. Subject to the limitations and requirements of ORS Chapter 192 (public records law) and other applicable laws, Metro will treat as confidential any information so marked and will make a good faith effort to not disclose that information unless Metro's refusal to disclose the information would be contrary to applicable Oregon law.

Within five days of Metro's receipt of a request for disclosure of information identified by the applicant (or franchisee) as confidential, Metro will provide the applicant (or franchisee) written notice of the request. The applicant (or franchisee) will have three days within which time to respond in writing to the request before Metro determines, at its sole discretion, whether to disclose any requested information. The applicant (or franchisee) must pay any costs incurred by Metro as a result of Metro's efforts to remove or redact any confidential information from documents that Metro produces in response to a public records request. These conditions do not limit the use of any information submitted to or reviewed by Metro for regulatory purposes or in any enforcement proceeding. In addition, Metro may share any confidential information with representatives of other governmental agencies provided that, consistent with Oregon law, those representatives agree to continue to treat the information as confidential and make good faith efforts to not disclose the information.

APPLICANT CERTIFICATION:

An authorized agent of the applicant must sign this application. Metro will not accept an application without a signature.
