## More than recycled, remade new

MetroPaint is previously unwanted paint remade new. It is screened for quality and rebled into desirable colors. MetroPaint goes through a strict color-matching process to ensure the colors are consistent from one gallon to the next.

## Straight-up thrifty

Great quality comes with serious affordability. MetroPaint is less than half the cost per gallon compared to other paint brands.

## Many uses

MetroPaint is perfect for both indoor and outdoor use. It includes mold and fungus inhibitors and has a five-year limited warranty. It rolls, brushes and sprays on smoothly for thick, rich coverage—often achieved in just one coat.

## Environmentally smart

Choosing MetroPaint supports an effort that has remade millions of gallons of latex paint, keeping these reusable resources out of landfills.

Using recycled paint:

- decreases your carbon footprint.
- reduces the need for landfill space.
- conserves the water needed to make new paint.
- prevents pollution from the mining and extraction of raw materials.
