Clay Creative is a five-story industrial office building in Portland’s historic Central Eastside Industrial District, designed to appeal to software, creative and sustainable sector businesses.

The creative/industrial office space and retail/restaurant space benefit from high-quality design materials that offer the best of old and new and innovative building efficiency systems.

The use of heavy timber for the building structure and floors provides long clear spans and increased strength. Interior spaces have high ceilings, exposed heavy timber, ample daylight, operable windows and highly flexible open floor plans. A fifth-floor rooftop terrace provides expansive city, river and mountain views.

Cost premiums result from structured parking, fire safety requirements and the change in construction type required because of building height.

The Portland Development Commission recommended Enterprise Zone tax abatements that will directly benefit tenants.

Clay Creative is located a short distance from the OMSI station on the MAX Orange Line and Portland Streetcar as well as numerous bus lines on the Hawthorne Bridge and Tilikum Crossing.

The building is also located in one of the region’s most bike-friendly neighborhoods. This project includes 95 secure bike parking spaces, bike repair facilities and shower/locker rooms for employees.
