¹ Most of the sponsorship awards were made solely in response to the requests that were received via the online request form. About four requests that came in via the online request form were for events or activities previously programmed for sponsorship in a department budget. These requests totaled \$15,500. In addition, Metro's Regional Travel Options program offers about \$50,000 in sponsorships that are managed independently of this sponsorship program with its own online request form. Only one of the requests for an RTO grant was submitted via the general sponsorship online request form. These exceptions are included on this list below, but are noted as such with an asterisk.
