

## 2018 Regional Transportation Plan

*safe • reliable • healthy • affordable*

# 2018 Regional Transportation Plan Table of Contents

---

December 6, 2018

This page intentionally left blank.

# TABLE OF CONTENTS

## Chapter 1 Toward A Connected Region

1.0 Purpose .....	1-1
Chapter organization .....	1-2
1.1 Introduction .....	1-3
1.2 Geographic setting .....	1-4
1.3 Metropolitan transportation planning process .....	1-7
1.3.1 The region has several planning boundaries with different purposes.....	1-10
1.3.2 Metro facilitates the metropolitan transportation planning process through Metro’s advisory committees.....	1-11
1.4 Process and engagement overview .....	1-13
Phase 1: Getting started   May to December 2015 .....	1-14
Phase 2: Framing trends and challenges   January to April 2016.....	1-14
Phase 3: Looking forward   May 2016 to May 2017.....	1-15
Phase 4: Building a shared strategy   June 2017 to March 2018.....	1-16
Phase 5: Adopting a plan of action   April to December 2018 .....	1-18
1.5 What’s next moving forward? .....	1-20

## Chapter 2 Our Shared Vision and Goals for Transportation

2.0 Introduction .....	2-1
Chapter organization .....	2-2
2.1 Outcomes-based framework to guide transportation planning and decision-making .....	2-3
2.2 2040 Growth Concept – An integrated land use and transportation vision and strategy .....	2-6
2040 Growth Concept Land-use Design Types .....	2-7
2.3 Shared vision for the regional transportation system .....	2-9
Outcomes-based goals to realize our vision .....	2-9
2.4 Goals, objectives and performance targets .....	2-10
GOAL 1: Vibrant Communities .....	2-13
GOAL 2: Shared Prosperity .....	2-14
GOAL 3: Transportation Choices .....	2-15
GOAL 4: Reliability and Efficiency .....	2-16
GOAL 5: Safety and Security .....	2-17
GOAL 6: Healthy Environment .....	2-18

GOAL 7: Healthy People.....	2-19
GOAL 8: Climate Leadership .....	2-20
GOAL 9: Equitable Transportation .....	2-21
GOAL 10: Fiscal Stewardship.....	2-22
GOAL 11: Transparency and Accountability.....	2-23
Regional transportation performance targets.....	2-24
Additional state-mandated targets.....	2-25

## **Chapter 3 System Policies to Achieve Our Vision**

3.0 Introduction .....	3-1
Purpose .....	3-1
Chapter organization .....	3-1
3.1 Regional Transportation System Components .....	3-2
3.2 Overarching System Policies .....	3-4
3.2.1 Safety and security policies.....	3-4
3.2.2 Transportation equity policies .....	3-12
3.2.3 Climate leadership policies .....	3-29
3.2.4 Emerging technology policies .....	3-34
3.3 Regional Design and Placemaking Vision and Policies.....	3-42
3.3.1 Streets serve many functions.....	3-42
3.3.2 Regional design classifications .....	3-43
3.3.3 Designs for safe and healthy transportation for all ages and abilities.....	3-49
3.3.4 Designs for stormwater management and natural, historical and cultural resources protection .....	3-51
3.4 Regional Network Visions, Concepts and Policies.....	3-55
3.4.1 Regional mobility corridor concept.....	3-55
3.5 Regional Motor Vehicle Network Vision and Policies .....	3-57
3.5.1 Regional motor vehicle network vision.....	3-57
3.5.2 Regional motor vehicle network concept .....	3-57
3.5.3 Regional motor vehicle network policies.....	3-58
3.5.3 Regional motor vehicle network classifications and map.....	3-66
3.5.4 Interim regional mobility policy .....	3-69
3.5.5 Congestion management process.....	3-71
3.6 Regional Transit Network Vision and Policies.....	3-73
3.6.1 Regional transit network vision .....	3-73

3.6.2 Regional transit network concept.....	3-74
3.6.3 Regional transit network functional classifications and map .....	3-77
3.6.4 Regional transit network policies.....	3-82
3.7 Regional Freight Network Vision and Policies.....	3-98
3.7.1 Regional freight network concept .....	3-98
3.7.2 Regional freight network policies .....	3-99
3.7.3 Regional freight network classifications and map .....	3-104
3.8 Regional Active Transportation Network Vision .....	3-107
3.8.1 Regional active transportation network vision .....	3-107
3.9 Regional Bicycle Network Concept and policies .....	3-109
3.9.1 Regional bicycle network concept .....	3-109
3.9.2 Regional bicycle network policies .....	3-111
3.9.3 Regional bicycle network functional classifications and map.....	3-115
3.10 Regional Pedestrian Network Concept and policies .....	3-120
3.10.1 Regional pedestrian network concept.....	3-121
3.10.2 Regional pedestrian network policies.....	3-122
3.10.3 Regional pedestrian network classifications and map.....	3-126
3.11 Transportation System Management and Operations Vision and Policies.....	3-129
3.11.1 Transportation system management and operations concept.....	3-129
3.11.2 Transportation system management and operations policies .....	3-131
3.12 Moving from Vision to Action .....	3-141

## **Chapter 4 Our Growing and Changing Region**

4.1 Introduction .....	4-1
4.1.1 Chapter organization .....	4-3
4.2 Who We Are.....	4-4
4.2.1 Demographic changes.....	4-9
4.2.2 Where we live and work .....	4-13
4.2.3 Jobs and a growing economy.....	4-14
4.3 How We Get Around .....	4-17
4.3.1 Travel .....	4-17
4.3.2 Mode share .....	4-19
4.4 How We Move Goods and Services .....	4-29
4.4.1 Competing in a global economy .....	4-31

4.5 How We Keep Our Environment Healthy .....	4-33
4.5.1 Air quality and climate change.....	4-33
4.5.2 Wildlife Habitat and Connectivity .....	4-35
4.5.3 Water Quality.....	4-36
4.6 How The System Is Working – Challenges and Opportunities Ahead.....	4-38
4.6.1 Inadequate funding.....	4-38
4.6.2 Aging infrastructure – maintaining the system we have .....	4-40
4.6.3 Climate change and air quality .....	4-43
4.6.4 Energy efficiency and conservation .....	4-44
4.6.5 Congestion and reliability .....	4-47
ODOT report shows growth in congestion .....	4-47
Oregon Legislature commits to addressing congestion in the greater Portland region.....	4-50
4.6.6 Fatal and life-changing crashes.....	4-53
4.6.7 Earthquake vulnerability, security and emergency management .....	4-58
4.6.8 Gaps in transit, biking and walking connections.....	4-62
4.6.9 Social inequity and disparities .....	4-69
4.6.10 Housing and transportation affordability and displacement.....	4-71
4.6.11 Technological change.....	4-74

## **Chapter 5 Our Transportation Funding Outlook**

5.0 Purpose.....	5-1
Chapter organization .....	5-1
5.1 Introduction .....	5-3
5.2 Sources of Revenue and Estimated Budget for Plan Investments .....	5-5
5.3 Demonstration of Financial Constraint .....	5-7

## **Chapter 6 Regional Programs and Projects to Achieve Our Vision**

6.1 Introduction .....	6-1
6.1.1 Addressing our most urgent needs through our investments .....	6-1
6.1.2 Chapter organization .....	6-2
6.2 What are the region’s investment priorities?.....	6-3
6.2.1 Maintaining the system we have .....	6-3
6.2.2 Implementing the 2040 Growth Concept .....	6-3
6.2.3 Implementing the Climate Smart Strategy .....	6-4
6.2.4 Advancing transportation equity .....	6-4

6.2.5 Improving safety .....	6-4
6.2.6 Managing congestion.....	6-4
6.2.7 Expanding travel options .....	6-4
6.3 RTP Projects and Programs .....	6-6
6.3.1 Developing the project lists .....	6-6
6.3.2 RTP Constrained projects and programs .....	6-8
Greater Portland region .....	6-12
ODOT Projects .....	6-15
TriMet Projects.....	6-16
SMART Projects .....	6-16
City of Portland Projects.....	6-17
Clackamas County Projects .....	6-19
East Multnomah County Projects.....	6-21
Washington County Projects .....	6-23
6.3.3 Transit capital projects and planned service .....	6-25
6.3.4 Throughway projects .....	6-26
6.3.5 Roads and bridges projects.....	6-28
6.3.6 Freight access projects.....	6-30
6.3.7 Active transportation projects .....	6-32
6.3.8 Transportation system management and operations projects .....	6-34
6.3.9 Transportation demand management projects.....	6-36
6.3.10 Other projects and programs to leverage capital investments .....	6-38
6.3.11 Transportation equity projects .....	6-38
6.3.12 Safety projects and safety benefit projects .....	6-39
6.3.13 Parking management.....	6-43
6.3.14 Transit operations and maintenance costs.....	6-45
6.3.15 Throughway, roads and bridges operations and maintenance costs .....	6-45
6.4 The 2040 Strategic project list .....	6-46

## Chapter 7 Measuring Outcomes

7.1 Introduction .....	7-1
Chapter organization .....	7-2
7.2 Performance-Based Planning and the RTP .....	7-3
Performance measure outcomes at-a-glance.....	7-5
7.3 RTP System Evaluation Framework .....	7-15

7.3.1 Measuring transportation equity.....	7-16
7.3.2 Evaluating system performance for different geographical areas.....	7-18
7.3.3 Evaluating system performance for different investment strategies .....	7-22
7.3.4 How to read the system evaluation measures .....	7-23
7.4 How the System Performs .....	7-24
7.4.1 Multimodal travel .....	7-25
7.4.2 Active transportation and transit mode share.....	7-27
7.4.3 Access to travel options – system completeness.....	7-34
7.4.4 Access to jobs.....	7-42
7.4.5 Access to community places .....	7-46
7.4.6 Access to bicycle and pedestrian parkways .....	7-49
7.4.7 Access to transit.....	7-50
7.4.8 Access to industry and freight intermodal facilities.....	7-57
7.4.9 Multimodal travel times .....	7-57
7.4.10 Congestion .....	7-61
7.4.11 Transit efficiency and ridership.....	7-72
7.4.12 Climate change .....	7-74
7.4.13 Clean air .....	7-77
7.4.14 Potential habitat impact .....	7-81
7.4.15 Potential impacts to historical and cultural resources and tribal lands.....	7-85
7.4.16 Public health .....	7-86

## Chapter 8 Moving Forward Together

8.0 Purpose .....	8-1
Chapter organization .....	8-1
8.1 Introduction .....	8-2
Connecting Our Shared Values and Vision for the Future: Setting a Course for Transportation.	8-2
8.2 Planning and programs .....	8-5
8.2.1 Local Implementation .....	8-5
8.2.1.1 Cooper Mountain Transportation Study .....	8-6
8.2.2 Metro’s Regional Programs .....	8-8
8.2.2.1 Civil Rights and Environmental Justice program .....	8-8
8.2.2.2 Regional Transportation Safety Program .....	8-9
8.2.2.3 Regional Active Transportation Program .....	8-9
8.2.2.4 Regional Freight Program .....	8-10

8.2.2.5 Transportation System Management and Operations (TSMO) Program .....	8-10
8.2.2.6 Regional Travel Options (RTO) and Safe Routes to School Programs.....	8-11
8.2.2.7 Air Quality and Climate Change Monitoring.....	8-11
8.2.2.8 Complete Streets Program .....	8-11
8.2.2.9 Regional Transit-Oriented Development Program .....	8-12
8.2.2.10 Investment Areas Program.....	8-12
8.2.2.11 Emerging Technology Program .....	8-13
8.2.3 Region-wide Planning .....	8-14
8.2.3.1 Regional Mobility Policy Update .....	8-15
8.2.3.2 Regional Congestion Pricing Technical Analysis .....	8-19
8.2.3.3 Transportation System Management and Operations Strategy Update.....	8-20
8.2.3.4 Jurisdictional Transfer Assessment Program.....	8-21
8.2.3.5 Transit Planning.....	8-27
8.2.3.6 Enhanced Transit Concept (ETC) Pilot Program.....	8-28
8.2.3.7 Central City Transit Capacity and Steel Bridge Analysis .....	8-30
8.2.3.8 Transportation Equity Analysis and Monitoring.....	8-31
8.2.3.9 Funding Strategy for Regional Bridges .....	8-32
8.2.3.10 Emergency Transportation Routes Project.....	8-32
8.2.3.11 Regional Freight Delay and Commodities Movement Study.....	8-35
8.2.3.12 Regional Freight Rail Study.....	8-36
8.2.3.13 Regional Transportation Functional Plan Update .....	8-36
8.2.3.14 Parking Management Policy Update .....	8-38
8.2.3.15 Green Corridor Implementation.....	8-38
8.2.3.16 Frog Ferry Passenger River Taxi Service Study .....	8-39
8.2.4 Corridor Refinement Planning .....	8-40
8.2.4.1 Tigard to Wilsonville (Mobility Corridor 3).....	8-46
8.2.4.2 Portland Central City Loop (Mobility Corridor 4).....	8-49
8.2.4.3 Clark County to I-5 via Gateway, Oregon City and Tualatin (Mobility Corridors 7, 8 and 10).....	8-51
8.2.4.4 Beaverton to Forest Grove (Mobility Corridors 14 and 15).....	8-53
8.2.4.5 Powell-Division Corridor: Portland Central City to Lents Town Center and Lents Town Center to Gresham Regional Center (Mobility Corridors 19 and 20) .....	8-57
8.2.4.6 Hillsboro to Portland (Mobility Corridors 13, 14 and 16) .....	8-59
8.2.4.7 Clackamas to Columbia (Mobility Corridor 24) .....	8-63

8.3 Projects .....	8-65
8.3.1 Major Project Development .....	8-65
8.3.1.1 Interstate 5 Corridor and Bridge Replacement Project (formally Interstate 5/Columbia River Crossing Project).....	8-67
8.3.1.2 Sunrise Project and Sunrise Jobs and Transportation Act Project.....	8-69
8.3.1.3 Division Transit Project.....	8-70
8.3.1.4 Southwest Corridor Transit Project .....	8-70
8.3.1.5 MAX Red Line Improvements Project.....	8-72
8.3.1.6 I-5 Rose Quarter Improvement Project .....	8-74
8.3.1.7 OR 217 Project.....	8-76
8.3.1.8 I-205 South Corridor Widening and Seismic Improvements Project.....	8-77
8.3.1.9 Basalt Creek Parkway .....	8-78
8.3.2 Metropolitan Transportation Improvement Program .....	8-79
8.3.2.1 MTIP responsibilities and oversight .....	8-79
8.3.2.2 The role of the MTIP in regional planning .....	8-80
8.3.2.3 Demonstrating consistency prior to implementation .....	8-80
8.3.2.4 Demonstrating fiscal constraint .....	8-82
8.3.2.5 Demonstrating support toward achievement of performance targets.....	8-83
8.3.2.6 Public involvement expectations and process for demonstrating consistency.....	8-84
8.3.2.7 Developing the MTIP .....	8-85
8.4 Amending the Regional Transportation plan .....	8-86
8.4.1 RTP Policy, System Map and Compliance Criteria Amendments.....	8-86
8.4.2 RTP Project Amendments .....	8-86
8.5 Data and tools.....	8-89
8.5.1 Performance-based planning and programming .....	8-89
8.5.2 Data Collection and Coordination.....	8-89
8.5.2.1 Growth Data .....	8-90
8.5.2.3 Travel Activity Data .....	8-90
8.5.2.4 Transportation Safety Data .....	8-90
8.5.2.5 Multi-Modal Network Data .....	8-90
8.5.3 Analysis Tool Maintenance and Enhancement.....	8-90
8.5.3.1 Growth Forecast.....	8-91
8.5.3.2 Growth Forecast Tools .....	8-91
8.5.3.3 Regional Transportation Model Tools .....	8-91

8.5.4 Analysis Tool Development.....	8-91
8.5.4.1 Regional Activity-Based Model.....	8-91
8.5.4.2 Regional Freight Model .....	8-92
8.5.4.3 Multi-Criterion Evaluation Toolkit .....	8-92
8.5.4.4 Housing and Transportation Expenditure Tool .....	8-92
8.5.4.5 Economic Value Atlas Decision-Support Mapping Tool .....	8-92
8.5.4.6 Displacement Monitoring Tool.....	8-93
8.5.4.7 Crash Prediction Modeling Tool .....	8-94
8.5.4.8 2018 RTP Project Evaluation Pilot .....	8-94
8.5.5 Monitoring and Reporting Tools.....	8-96
8.5.5.1 Monitoring Data and Information Systems.....	8-96
8.5.5.2 Congestion Management Process Data Collection and Monitoring.....	8-96
8.5.5.3 Greater Portland Pulse and Regional Barometer .....	8-98
8.5.5.4 Performance monitoring measures and targets .....	8-98

## LIST OF FIGURES

### Chapter 1 Toward A Connected Region

Figure 1.1 Portland-Vancouver metropolitan region geographic context.....	1-4
Figure 1.2 Cities and counties of the Portland-Vancouver metropolitan region .....	1-6
Figure 1.3 National goal areas and federal planning factors .....	1-7
Figure 1.4 How federal and regional transportation policies have evolved since the 1990s .....	1-9
Figure 1.5 Metropolitan planning area boundary.....	1-10
Figure 1.6 Regional transportation decision-making process.....	1-11
Figure 1.7 Timeline and process for development of the 2018 Regional Transportation Plan .....	1-13

### Chapter 2 Our Shared Vision and Goals for Transportation

Figure 2.1 2040 Growth Concept – an integrated land use and transportation vision.....	2-6
Figure 2.2 RTP performance-based planning and decision-making framework.....	2-10
Figure 2.3 RTP goals and objectives – At-A-Glance.....	2-11
Figure 2.4 RTP performance targets – At-A-Glance .....	2-24
Figure 2.5 Oregon legislation drives climate policy and implementation .....	2-29

## Chapter 3 System Policies to Achieve Our Vision

Figure 3.1 Regional transportation safety strategies.....	3-5
Figure 3.2 Components of the Safe System approach.....	3-6
Figure 3.3 Guiding principles of the Safe System approach .....	3-7
Figure 3.4 Regional high injury corridors and intersections .....	3-8
Figure 3.5 RTP equity focus areas .....	3-17
Figure 3.6 Emerging Technology Strategy policy framework .....	3-37
Figure 3.7 Regional design classifications map .....	3-45
Figure 3.8 Metro’s Designing Livable Streets handbooks .....	3-50
Figure 3.9 Regional mobility corridor concept.....	3-56
Figure 3.10 Mobility corridors in the Portland metropolitan region .....	3-56
Figure 3.11 Regional motor vehicle network concept .....	3-57
Figure 3.12 Collector and local street network concept.....	3-64
Figure 3.13 Regional motor vehicle network map.....	3-67
Figure 3.14 Regional transit network concept.....	3-75
Figure 3.15 Regional transit spectrum.....	3-78
Figure 3.16 Regional transit network map.....	3-79
Figure 3.17 Service improvements, capital investments and transit supportive elements.....	3-81
Figure 3.18 U.S. high-speed intercity passenger rail network .....	3-91
Figure 3.19 Regional transit system access priorities .....	3-92
Figure 3.20 Regional freight network concept.....	3-98
Figure 3.21 Regional freight network map .....	3-105
Figure 3.22 Regional bicycle network concept .....	3-110
Figure 3.23 Bicycle parkway concept.....	3-113
Figure 3.24 Regional bicycle network map .....	3-117
Figure 3.25 Regional pedestrian network concept .....	3-121
Figure 3.26 Regional pedestrian network map.....	3-127
Figure 3.27 Illustration of transportation system management and operations strategies.....	3-130
Figure 3.28 Transportation system management and operations map .....	3-133
Figure 3.29 Effectiveness of employer-based commuter programs.....	3-138
Figure 3.30 Local partnerships and investments by Regional Travel Options program.....	3-139
Figure 3.31 Areas assumed to have parking management in the region (2040) .....	3-140

## Chapter 4 Our Growing and Changing Region

Figure 4.1 Population by metropolitan area, 2017 .....	4-4
Figure 4.2 Cities and counties in the greater Portland region, 2018 .....	4-5
Figure 4.3 Percent of population by location of birth, 2010 .....	4-6
Figure 4.4 Top ten states for inbound migration, 2017-2018 .....	4-6
Figure 4.5 Source of population increase in the three counties, 2000-2009 .....	4-7
Figure 4.6 Net migration into the 7-county Portland region .....	4-8
Figure 4.7 Communities of color share of population in Portland tri-county area, 1960-2010 .....	4-9
Figure 4.8 Race and ethnicity in the 7-county greater Portland region, 1990 and 2010 .....	4-10
Figure 4.9 Age cohorts as a percentage of total population in the 7-county greater Portland region, 2018 and 2038 .....	4-11
Figure 4.10 Prevalence of self-reported obesity among U.S. adults by state and territory, 2011 .....	4-12
Figure 4.11 Prevalence of self-reported obesity among U.S. adults by state and territory, 2016 .....	4-12
Figure 4.12 Where residents work in the greater Portland region, 2015 .....	4-14
Figure 4.13 Unemployment rate in the greater Portland region, 2000-2017 .....	4-15
Figure 4.14 Employment growth by metropolitan statistical area, 2014-2015 .....	4-15
Figure 4.15 Employment by industry for Portland-Vancouver-Hillsboro MSA (Oregon portion only), 2017 .....	4-16
Figure 4.16 Fastest growing industries in 7-county region, 2014-2015 .....	4-16
Figure 4.17 Average annual vehicle miles traveled per person, greater Portland region compared to other metropolitan areas, 1982-2014 .....	4-17
Figure 4.18 Mode share of new commuters in the 7-county MSA, 2000-2015 .....	4-18
Figure 4.19 Ranking of drive alone commuting in U.S. metropolitan areas, 2015 .....	4-18
Figure 4.20 Mode share comparison for commute and all trips, 2011 .....	4-19
Figure 4.21 Travel modes by non-White and White populations in Oregon, 2011 .....	4-20
Figure 4.22 Annual transportation costs by mode, 2014 .....	4-20
Figure 4.23 2016 TriMet cost per ride .....	4-21
Figure 4.24 Bike and walk commute rates for metropolitan areas, 2015 .....	4-22
Figure 4.25 Bike commute rates for metropolitan areas, 2015 .....	4-23
Figure 4.26 Transit commute rates for metropolitan areas, 2015 .....	4-24
Figure 4.27 TriMet boarding rides per revenue hour compared to other regions, 2015 .....	4-24
Figure 4.28 Transit ridership compared to other Portland regional trends, 2005-2015 .....	4-25
Figure 4.29 MAX System Map, 2018 .....	4-25
Figure 4.30 Top performing transit lines, 2015 .....	4-26

Figure 4.31 Quick facts about commuting in the greater Portland region, 2015 .....	4-28
Figure 4.32 Freight goods movement in the greater Portland region, 2012 .....	4-29
Figure 4.33 Freight weight to value, 2007-2012 .....	4-30
Figure 4.34 Real export growth by metropolitan statistical area, 2003-2013 .....	4-31
Figure 4.35 Resource areas considered in RTP environmental analysis .....	4-36
Figure 4.36 Comparison of gasoline taxes and fees in all states, 2018.....	4-39
Figure 4.37 Regional Bridge Condition.....	4-43
Figure 4.38 Oregon Energy Consumption by Sector, 2016 .....	4-45
Figure 4.39 Energy use by mode.....	4-46
Figure 4.40 Causes of congestion in the greater Portland region.....	4-47
Figure 4.41 Top recurring throughway bottlenecks in the region, 2013 - 2015 .....	4-48
Figure 4.42 Transit reliability in the greater Portland region, 2018.....	4-50
Figure 4.43 Throughway bottlenecks in the greater Portland region, 2017 .....	4-51
Figure 4.44 Average commute distance and time for metropolitan areas, 2010-2015.....	4-52
Figure 4.45 Fatal and life changing injuries in the greater Portland region, 2011-2015.....	4-54
Figure 4.46 High injury corridors and intersections in the greater Portland region, 2011-2015.....	4-55
Figure 4.47 All crashes and fatal crashes by mode, 2010-2014.....	4-57
Figure 4.48 Seismic vulnerability of the region’s bridges for Cascadia Subduction Zone quake .....	4-60
Figure 4.49 Seismic vulnerability of the region’s bridges for Portland Hills Fault quake.....	4-61
Figure 4.50 Existing transit services in the greater Portland region and beyond .....	4-63
Figure 4.51 Existing transit service, 2018 .....	4-64
Figure 4.52 Regional pedestrian network gaps, 2012.....	4-65
Figure 4.53 Level of sidewalk completion in the greater Portland region, 2012 .....	4-66
Figure 4.54 Regional bicycle network gaps, 2016.....	4-67
Figure 4.55 Existing bikeways in the greater Portland region, 2018.....	4-68
Figure 4.56 Regional trail existing system gaps .....	4-69
Figure 4.57 RTP equity focus areas.....	4-71
Figure 4.58 Homeownership in the greater Portland region, 2010.....	4-72
Figure 4.59 Access to jobs within typical commute distance by race and ethnicity in the Portland- Vancouver MSA, percent change from 2002 to 2012.....	4-72
Figure 4.60 Displacement of people of color in the greater Portland region, 1990-2010.....	4-73
Figure 4.61 How technological change could impact the greater Portland region’s future .....	4-75

## Chapter 5 Our Transportation Funding Outlook

Figure 5.1 Total estimated investment by 2040 (2016\$) .....	5-8
--	-----

## Chapter 6 Regional Programs and Projects to Achieve Our Vision

Figure 6.1 2018 RTP Investment Strategy .....	6-5
Figure 6.2 Greater Portland region: Map of Constrained RTP Projects .....	6-9
Figure 6.3 Total estimated investment by 2040 (2016\$) .....	6-11
Figure 6.4 Greater Portland region: Cost and number of Constrained RTP projects by investment category .....	6-12
Figure 6.5 Greater Portland region: Cost of Constrained RTP capital projects by investment category .....	6-12

## LIST OF TABLES

### Chapter 1 Toward A Connected Region

None.

### Chapter 2 Our Shared Vision and Goals for Transportation

Table 2.1 2040 Growth Concept land-use design types .....	2-7
Table 2.2 Priority infrastructure investment strategies.....	2-8
Table 2.3 Regional modal targets for 2040.....	2-25
Table 2.4 Interim regional mobility policy .....	2-27
Table 2.5 Greenhouse gas emissions reduction targets .....	2-30

### Chapter 3 System Policies to Achieve Our Vision

Table 3.1 How emerging technologies could impact our regional goals .....	3-36
Table 3.2 RTP goals and corresponding emerging technology principles.....	3-38
Table 3.3 Design classifications for the Regional Motor Vehicle Network .....	3-47
Table 3.4 Design characteristics of healthy arterials .....	3-49
Table 3.5 Examples of how green infrastructure can help achieve RTP goals .....	3-53
Table 3.6 Interim regional mobility policy .....	3-70
Table 3.7 Toolbox of strategies to address congestion in the region .....	3-72
Table 3.8 Effects of land use strategies on transit service.....	3-76
Table 3.9 Enhanced transit treatments .....	3-90
Table 3.10 Examples of TSMO strategies and investments .....	3-130
Table 3.11 Detecting and clearing incidents on throughways quickly restores lost capacity.....	3-136

### Chapter 4 Our Growing and Changing Region

Table 4.1 Comparison of automobile related taxes in western states, 2018 .....	4-39
Table 4.2 County-owned bridge conditions.....	4-41
Table 4.3 County reported pavement conditions.....	4-41
Table 4.4 City-owned bridge conditions .....	4-41
Table 4.5 City reported pavement conditions .....	4-42
Table 4.6 Percent of regional active transportation network complete.....	4-64

## Chapter 5 Our Transportation Funding Outlook

Table 5.1 RTP Constrained Revenue Forecast Summary for 2018 to 2040 (2016\$) .....	5-5
Table 5.2 RTP Constrained Revenue Forecast Estimates for Capital Investments for 2018 to 2040 (2016\$) .....	5-6
Table 5.3 Demonstration of Financial Constraint Revenue Forecast Compared to Costs (2016\$) .....	5-7
Table 5.4 Road-related Revenue Forecast Compared to Costs (2016\$) .....	5-7
Table 5.5 Transit-related Revenue Forecast Compared to Costs (2016\$) .....	5-8

## Chapter 6 Regional Programs and Projects to Achieve Our Vision

Table 6.1 2018 RTP Investment Scenarios .....	6-6
Table 6.2 Seven key recommendations to guide refinement of RTP projects lists.....	6-7
Table 6.3 Estimated costs for Constrained RTP Investment Strategy .....	6-8
Table 6.4 Summary of major planned throughway and transit investments .....	6-14
Table 6.5 Summary of Constrained RTP transit capital projects and planned service.....	6-25
Table 6.6 Summary of Constrained RTP throughway projects .....	6-27
Table 6.7 Summary of Constrained RTP roads and bridges projects .....	6-29
Table 6.8 Summary of Constrained RTP freight access projects.....	6-31
Table 6.9 Summary of Constrained RTP active transportation projects.....	6-33
Table 6.10 Summary of Constrained RTP transportation system management and operations projects .....	6-35
Table 6.11 Summary of Constrained RTP transportation demand management projects.....	6-37
Table 6.12 Summary of Constrained RTP safety projects .....	6-40
Table 6.13 Summary of Constrained RTP parking management .....	6-43
Table 6.14 Summary of Constrained RTP transit operations and maintenance projects .....	6-45
Table 6.15 Summary of Constrained RTP throughway, roads and bridges operations and maintenance projects .....	6-45
Table 6.16 Estimated costs for RTP investment strategies, including 2040 Strategic .....	6-46

## Chapter 7 Measuring Outcomes

Table 7.1 How RTP System Evaluation Measures Inform Achieving RTP Goals.....	7-4
Table 7.2 Base year (2015) and future year (2040) regional household, population and employment...	7-5
Table 7.3 Expected Outcomes of the 2040 Constrained Projects – Legend .....	7-7
Table 7.4 Expected Outcomes of the 2040 Constrained Projects – At-A-Glance.....	7-8
Table 7.5 Daily person miles traveled per person .....	7-26
Table 7.6 Daily vehicle miles traveled per person .....	7-26

Table 7.7 Daily transit miles traveled per person .....	7-26
Table 7.8 Daily bicycle miles traveled per person.....	7-26
Table 7.9 Daily pedestrian miles traveled per person .....	7-26
Table 7.10 Daily freight truck miles traveled .....	7-26
Table 7.11 Regional mode share (within the MPA) .....	7-27
Table 7.12 Non-drive alone mode share by sub-region.....	7-29
Table 7.13 Non-drive alone mode share for 2040 centers .....	7-30
Table 7.14 Non-drive alone mode share for other 2040 Growth Concept Design Types .....	7-31
Table 7.15 Walking, Biking and Transit Mode Share Within Regional Mobility Corridors.....	7-32
Table 7.16 Percent of all sidewalks, bikeways and trails completed near transit and near transit within equity focus areas .....	7-35
Table 7.17 Number and percent of sidewalk miles completed on the planned pedestrian network, in centers and on arterials .....	7-36
Table 7.18 Number of miles and percent of on-street bikeways completed .....	7-38
Table 7.19 Number of miles and percent of regional trails completed .....	7-39
Table 7.20 Change in the Number of Jobs Accessible Within a Typical Commute Time .....	7-43
Table 7.21 Change in the Number of Jobs Accessible, by Wage Profile, Within a Typical Commute Time for Different Communities .....	7-44
Table 7.22 Change in the Number of Community Places Accessible Within a Typical Commute Time for Different Communities .....	7-48
Table 7.23 Number of households with access to regional bicycle parkways .....	7-50
Table 7.24 Number of households with access to regional pedestrian parkways.....	7-50
Table 7.25 Throughway network miles that do not meet regional mobility policy .....	7-62
Table 7.26 Arterial network miles that do not meet regional mobility policy .....	7-63
Table 7.27 Truck vehicle hours of delay (VHD) on the Regional Freight Network.....	7-70
Table 7.28 Cost of truck vehicle hours of delay on the Regional Freight Network within the MPA.....	7-72
Table 7.29 Transit productivity .....	7-73
Table 7.30 Projected mobile source greenhouse gas emissions — all vehicles.....	7-77
Table 7.31 Projected mobile source greenhouse gas emissions – passenger vehicles only.....	7-77
Table 7.32 Estimated mobile source emissions by air pollutant – criteria pollutants .....	7-79
Table 7.33 Estimated mobile source emissions by air pollutant – air toxics .....	7-80
Table 7.34 Potential habitat impact analysis - number and percent of projects.....	7-84
Table 7.35 Number of 2040 Constrained projects potentially impacting environmental resources, by project type.....	7-84

Table 7.36 Number of 2040 Constrained RTP projects potentially impacting historical and cultural resources or tribal lands, by project type .....	7-85
Table 7.37 Average per person weekly minutes of biking and walking .....	7-88
Table 7.38 Estimated lives and years saved from increased physical activity and reduced air pollution.....	7-89
Table 7.39 Health care costs avoided (in 2017\$) .....	7-90

## Chapter 8 Moving Forward Together

Table 8.1 Overview of Region-wide Planning Activities.....	8-14
Table 8.2 Mobility Corridors Recommended for Future Corridor Refinement Planning .....	8-43
Table 8.3 Completed and Current Major Project Development .....	8-66
Table 8.4. Key Elements of the Region’s Congestion Management Process (CMP) .....	8-97

## LIST OF 2018 RTP APPENDICES

Appendix A.	Constrained Priorities (2018 to 2027 constrained project list)
Appendix B.	Constrained Priorities (2028 to 2040 constrained project list)
Appendix C.	Additional Priorities (2028 to 2040 Strategic project list)
Appendix D.	Public and Stakeholder Engagement and Consultation Summary
Appendix E.	Transportation Equity Evaluation
Appendix F.	Environmental Assessment and Potential Mitigation Strategies
Appendix G.	Coordinated Transportation Plan for Seniors and People with Disabilities (adopted in June 2016 by the TriMet Board)
Appendix H.	Financial Strategy Documentation
Appendix I.	Performance Evaluation Documentation
Appendix J.	Climate Smart Strategy Implementation and Monitoring
Appendix K.	Performance Targets
Appendix L.	Federal Performance-Based Planning and Congestion Management Process Documentation
Appendix M.	Regional Analysis
Appendix N.	Southwest Corridor Locally Preferred Alternative (adopted in Dec. 2018)
Appendix O.	Division Transit Project Locally Preferred Alternative (adopted in June 2017)
Appendix P.	East Metro Connections Plan (adopted in June 2013)
Appendix Q.	Sunrise Project Locally Preferred Alternative (adopted in July 2009)
Appendix R.	I-5/99W Connector Study Recommendations (adopted in Feb. 2009 by Project Steering Committee)
Appendix S.	I-5/Columbia River Bridge Replacement Locally Preferred Alternative (adopted in July 2008)
Appendix T.	Federal Air Quality Attainment Status Certification Letter
Appendix U.	Summary of Comments Received and Recommended Actions

## LIST OF TOPICAL AND MODAL STRATEGIES AND PLANS\*

	<b>Adoption date</b>
Regional Transportation Safety Strategy	Dec. 6, 2018
Regional Emerging Technology Strategy	Dec. 6, 2018
Regional Freight Strategy	Dec. 6, 2018
Regional Transit Strategy	Dec. 6, 2018
Regional Travel Options Strategy	May 24, 2018
Climate Smart Strategy	Dec. 18, 2014
Regional Active Transportation Plan	July 17, 2014
Regional Transportation System Management and Operations Strategic Plan	June 10, 2010

\* All strategies and plans were adopted by the Metro Council and Joint Policy Advisory Committee on Transportation (JPACT).
