

OVERVIEW

The Metro Council initiated the Investment and Innovation (I&I) program in 2018 as a three-year pilot to invest in efforts of private companies and nonprofit organizations to create, expand, preserve and broaden efforts that advance waste prevention, reuse, recycling and energy recovery in the greater Portland area, and to help foster economic opportunities and other benefits for communities of color and other historically marginalized communities. The I&I program helps Metro achieve the overarching objectives of the 2030 Regional Waste Plan by reducing the environmental impacts of materials throughout their life cycle and advancing racial equity.

This Impact Summary provides a high-level overview of the environmental, human health and racial equity impacts of the I&I pilot. ¹ It is a companion piece to the full evaluation report completed in spring 2021.

¹ The grants awarded during the pilot are not all fully implemented. This summary describes *actual impacts* of completed grants awarded in 2018, and *anticipated impacts* from grants awarded in 2019 and 2020.
