Tips on How to Use Metro Online Records

<u>Metro Online Records</u> provides public access to Metro's frequently requested records such as legislation, meeting records, reports, and publications.

a. Quick Search

This search appears in the top right corner of the search screen. It provides a fast and convenient way to perform simple searches that require <u>only a single search method</u>. The tool searches the titles of the records in the database. For helpful hints on searching, refer to the section on Search Techniques.

- 1. Type in your search words or phrase
- 2. Click the Quick Search button (or hit enter)

b. Search (aka "Complex Search")

This search technique allows you to perform <u>complex searches</u>. Utilize Boolean techniques to search on several search criteria at the same time; filter the results; and limit the Record Types to be searched. For helpful hints on searching, refer to the section on Search Techniques.

Metro Online Record	s	 1. Select a search method. Click on th dropdown for additional search methods.

Record Type	LEGISLATION			
Title Metro Council - Metro Legislation - Resolutions - 01-3101B: For the Purpose of Approving the Blue Lake Regional Park Economic Feasibility				

Search Techniques

Records in Metro's search tool can be found by searching based on different types of metadata (alone or in combination). If you are unable to find what you are looking for, try other search methods. See Page 3 for more information.

Here are some useful search techniques:

Wild card searches

Use an asterisk (*) to stand for one or more characters. This works for both alpha and numeric characters. Useful when:

- a word has more than one variation (Administrat* = Administration, Administrator, Administrative, Administration's, etc.)
- you are uncertain of the spelling (putre* waste = putrescible waste
- you don't know the complete number (9011* = 901100, 901101, 901102...901199)
- always include a wildcard when searching on a resolution or ordinance number , e.g., "07-1144*"

Title Word search

Searches any word or words that appear in the record's title.

Date Created search

Date of the document. To search on a date range use the word "to" between the dates. For example: **9/10/2012 to 10/10/2012**

Document Content search

Searches the text of electronic documents. [Note: This only works on documents that are text readable (e.g., PDFs that have been OCR'ed). Not all electronic records in Metro Online Records are text readable.]

Sort searches by record type:

Under the "Sort By" section of the search screen, choose record type from the drop down box. This will group record types together.

Below are some of the records commonly searched for in Online Records, with suggestions on how to search.

Record	Search Suggestions			
	Search method	Possible Search Terms		
Ordinance or Resolution	Title Word	Key words, such as "resolution* Blue Lake"		
(for related records see Search Techniques section above)	Record Number	Resolution or Ordinance number (always include a wildcard when searching on resolution or ordinance number , e.g.,		
		"07-1144*")		
Executive Order (EO)	Title Word	Executive Order number		
	Title Word	Executive Order name		
	Title Word	Key words, such as "executive order travel"		
	Record Number	"EO/" (if you know the actual EO number use it, not $*$)		
	Document Content	Keywords, such as "procedures travel reimbursement"		
Meeting Records	Title Word	Meeting/Committee Name		
(agendas, meeting packets,	Date Created	Meeting Date		
minutes, recordings)	Document Content	Key words, such as "Blue Lake"		

Record Title Examples

These examples of titles of records in WebDrawer will provide useful clues about how to search for similar records.
