

## APPENDIX O – CROSS-REFERENCE OF STREET AND ADDRESS CHANGES

Since the publication of the Draft EIS, the City of Portland readdressed a portion of the project area as part of the South Portland Addressing Project, approved by the City Council on June 6, 2018. The new addresses took effect on May 1, 2020. Nearly all of the changes were to replace the “SW” portion of the street name with “S” or to remove the leading zero addresses. Other changes included renumbering for consistency on odd- and even-numbered houses on opposite sides of the street or correcting spelling inconsistencies for street names. Figure O-1 shows the area affected by the addressing project in relation to the Southwest Corridor Light Rail Project. As shown, most of the address changes in the vicinity of the Project are north and east of the intersection of SW Barbur Boulevard and SW Hamilton Street. The City of provides more information at the addressing project website: <https://www.portlandoregon.gov/transportation/75814>.

For the purposes of this Final EIS, the original addresses were retained for the document, allowing for clear comparison between the Draft and Final EIS documents. The addresses appear in Appendix F, Properties Affected by Acquisitions and Permanent Easements, Appendix B4.14, Hazardous Materials Background Information, and Attachment C, *Cultural Resource Survey for the Southwest Corridor Light Rail Project*.

Table O-1 provides a cross-listing of the new and old addresses for those properties in the Final EIS study area that were part of the readdressing project. Major address changes (i.e., where the street name or number has been changed) are noted in bold.
