About MTIP Formal/Full Amendments

Formal MTIP amendments represent a significant change to a project from the original funding or scope of improvement activities. The various required process steps are intended to demonstrate that the required changes have no significant impact upon air conformity, plus fiscal constraint is still maintained, and/or the priorities, policies, and goals established in the approved Regional Transportation Plan (RTP) have not changed. Formal MTIP amendments normally fall into one or more of the following categories: (1) Significantly adds, revises, reduces, or changes the project scope of improvement activities. (2) Requires a significant change to the project limits (greater than 1 mile). (3) Involves a significant cost change (increase or decrease normally 20% or 30% greater). (4) Adds or cancels a project from the MTIP.

MTIP Programming Consistency Check Details and Glossary

General Areas

1	Phase funding fields: Red font = prior amended funding or project details. Blue font = amended changes to funding or project details. Black font indicates no change has occurred.
2	Amendment Purpose: The purpose of an MTIP amendment is normally to add a new project due to required federal review actions involving the MTIP and STIP, or complete required changes to the project (name description, or funding) to meet the project's next federal approval delivery step.
3	This amendment to the MTIP completes what action: PBOT will use Lombard as a pilot project for streamlining and expediting ADA permitting. As a result, Key 22469's scope, name, and funding are being adjusted. An additional \$1.6 million is being pulled from the ADA program to address the revised cost to US30BY locations. The OR99E segment is being eliminated. The cost increase along with the scope update triggers the need for a formal amendment.
4	MTIP Programming Submitted Supporting Documentation: STIP Summary Report, STIP Impacts Worksheet, project location map.

Public Notification and Comment Process:	
5A	Was a 30 Public Notification/Opportunity to Comment Period Required? Yes
5B	What were the 30 day Public Notification/Opportunity to Comment Start and end dates? January 4, 20223 through February 2, 2024
5C	Was the Public Notification/Opportunity to Comment period completed consistent with the Metro Public Participation Plan? Yes
5D	Was the Public Notification/Opportunity to Comment period included on the Metro website allowing email submissions as comments? Yes
5E	Were there a significant amount of comments received requiring a comments log summary provided to Metro Communications Staff? Any significant comments are included in a public notification comment log and passed on to Metro communications staff, and/or ODOT public information contacts to determine appropriate replies. For this specific project, no significant comments are expected.
6	Added clarifying notes:

Fiscal Constraint Consistency Check Areas	
1	Will Performance Measurements Apply? Yes, Safety
2A	Does the amendment include fiscal updates? Yes
2B	What is the funding source for the project? Available funding from the ODOT ADA program
2C	Was the Proof-of Funding requirement satisfied and how? Acknowledgement from ADA Program that the funds are available to the project.
2D	Was overall fiscal constraint demonstrated? Yes.

RTP Consistency Check Areas	
1A	RTP ID and Name: ID# 12095 - Safety & Operations Projects
1B	RTP Project Description: Projects to improve safety or operational efficiencies such as pedestrian crossings of arterial roads, railroad crossing repairs, slide and rock fall protections, illumination, signals and signal operations systems, that do not add motor vehicle capacity.
2A	Is the project exempt per 40 CFR 93.126, Table 2 or 40 CFR 92.127, Table 3? Yes, the project is exempt per 40 CFR 93.126, Table
2B	What is the exception category per the regulation: Table 2 - Safety - Projects that correct, improve, or eliminate a hazardous location or feature.
3A	Is the project considered capacity enhancing? No. The project is not capacity enhancing.
3B	If capacity enhancing, did the project complete required transportation demand modeling through the RTP Update or via an RTP amendment? N/A
3C	Is Air Quality analysis required? No. The Metro MPA has obtained conformity attainment. Special air quality analysis requirements do not apply.
3D	Is an Air Quality analysis approval date required? No. If the project is capacity enhancing, then transportation modeling analysis was completed as part of the RTP update. The RTP approval date 12/6/2018 can be considered the date for the completion of any required transportation demand modeling requirements for projects if they are capacity enhancing.
4	What RTP Goal(s) does the project support? Goal #5 - Safety and Security: Objective 5.1 Transportation Safety – Eliminate fatal and severe injury crashes for all modes of travel.
5	Does the project require a special performance assessment evaluation as part of the amendment? (applies to capacity enhancing projects, \$100 million or greater, and regionally significant). No. The Performance Evaluation Assessment requirement does not apply for this project.

UPWP Consistency Check Areas

1A	Does the MTIP action also require an UPWP amendment: No. The project is not part of the UPWP.
1B	Can the MTIP amendment proceed ahead of the UPWP amendment? Yes.
2	What UPWP category does the project fit under (e.g. Master Agreement, Metro Funded Regionally Significant, or Non-Metro Funded Regionally Significant)? Not applicable

Other Review Areas

1	Is the project location identified on the National Highway System (NHS), and what is its designation?
2A	Is the project location identified as part of one or more of Metro Modeling Networks, and which one(s)?
2B	What is the Metro modeling designation?
3	Is the project designated as a Transportation Control Measure (TCM)?
4	Is the project location identified on a Congestion Management Plan route?

Fund Type Codes References

ADVCON	A general Federal Advance Construction fund type placeholder used by ODOT when the expected federal fund code (e.g. HSIP, NHPP) is not available or designated yet. ODOT covers the initial expenditures allowing the phase obligation to occur. Later the federal conversion fund code is assigned.
AC-STBGS	Federal Advance Construction fund type code with the anticipated federal conversion code identified. For AC-STBGS, the anticipated conversion code is State STBG
State STBG	Federal Surface Transportation Block Grant funds appropriated to ODOT and committed to eligible projects
State	General state funds committed to the project normally to support the match requirement against the federal funds.
