

# **2021-24 Metropolitan Transportation Improvement Program**

Amended as of April 30, 2023

**[oregonmetro.gov](http://oregonmetro.gov)**

Metro  
600 NE Grand Ave.  
Portland, OR 97232-2736  
503-797-1700

As the metropolitan planning organization for the Portland region, Metro is required to prepare the MTIP, documenting funded projects scheduled for the next four years.

The MTIP is incorporated without change into the [State Transportation Improvement Program](#), Oregon's statewide four-year transportation capital improvement program. Like the MTIP, Oregon's STIP covers a four-year construction period, and is updated every two to three years.

The MTIP (and STIP) are “living” documents, subject to updates through an amendment process. The project programming tables in this report have been updated to include the MTIP amendments approved and processed prior to the date of this report. The adopted version of the 2021-24 MTIP can be found in its entirety here: [2021-24 MTIP](#)

## MTIP Content and Timeline

The 2021-24 MTIP represents an overall capital expenditure program for the regional transportation system in a four-year timeframe. The transportation investments identified in the MTIP serves as a snapshot of the transportation expenditures for the Portland urbanized area during the four-year period beginning October 1, 2021 and ending September 30, 2024 (federal fiscal years 2021 through 2024). Context within the MTIP includes: the amount and type of federal funding being allocated to a specific transportation project, the amount of local dollars provided as match, and how much is estimated to be spent in each year. All transportation investments (i.e. projects) in the MTIP must address federally funded highway, public transit, and state or locally funded projects which have measurable affects to the region's air quality. The most detailed information is required for federally funded projects. For federal projects, the MTIP must:

- describe the projects sufficiently to determine their air quality effects;
- identify the type of federal funding that will be used, and the amount of local matching funds;
- schedule the anticipated year in which money will be committed to a particular project; and specify the phases of work to be supported by identified funds (e.g., construction, right-of-way acquisition or design);
- include total project cost; and
- show prior allocations.

## MTIP Programming

Programming of funds refers to the assignment of transportation investments by phase (planning, project development, preliminary engineering, final design, right-of-way and construction) to the types of federal funds and expected years of expenditure. Metro works in cooperation with all of the region's local agencies, the regional transportation agencies, and ODOT to incorporate all the federally funded and regionally significant projects into the MTIP. Metro staff coordinates with sponsoring agencies to determine the expected timing of project phases and seeks to schedule expected revenue to planned work phases in each year of the program. The goal is to assure that all regionally funded projects are able to advance in a timely, logical fashion. Typically, this involves transportation funding being split into different fiscal years with preliminary engineering in year one, right-of-way acquisition in year two and construction in year three. It is very rare that a project can execute more than one phase of work in a single year.

## MTIP Amendments

### **Background: The Need for MTIP Amendments**

23 CFR 450.324 identifies MTIP requirements when the MTIP updated. In between MTIP Updates, US DOT authorizes modifications to the MTIP that do not result or contribute to increases mobile emissions and negatively regional air conformity, or negatively impact the fiscal constraint to the degree that the MTIP fiscal constraint finding would be invalidated. From initial federal award/allocation through programming and fund obligation to implementation and final project delivery, the federal transportation process could be described as living and ever changing. 23 CFR 450.326 acknowledges that periodic project modifications in scope, funding, work elements, etc.

will need to occur and modifications to projects programmed in the MTIP via amendments will have to be completed.

Projects programmed in the MTIP are to be maintained as accurately as currently approved. Therefore, if a required change to a project emerges during project development, or other implementation phases, the project in the MTIP also needs to be amended to reflect the change. However, USDOT has placed limits on the degree and types of changes allowed through an MTIP amendment process. Generally, the MTIP amendment process is governed under the following basic rules for project changes:

- Any and all changes must result in the project still being consistent with the original approved project in the RTP.
- The changes result in a project that still supports the goals and strategies of the RTP.
- The impact of the changes does not negatively result in higher emissions or negatively impact air conformity.
- The changes do not negatively impact the fiscal constraint finding for the RTP and/or MTIP.
- The changes will be made in a transparent and open process allowing necessary public review/and comment for major and significant project changes that are allowed through an MTIP amendment.
- The changes are necessary to ensure the MTIP and the draft environmental document match.

### **Objectives of the MTIP Amendment Process**

Developing, implementing, and managing MTIP amendments must adhere to the above basic rules and meet seven key objectives. The objectives are:

1. Ensure that federal requirements are properly met for use of available federal funds, including the requirement that projects using federal funds, and all projects of regional significance are included in the TIP and that the projects are consistent with the financially constrained element of the RTP.
2. Ensure regional consideration of proposed amendments having an impact on the priority for use of limited available resources or having an effect on other parts of the transportation system, other modes of transportation or other jurisdictions.
3. Ensure that the responsibilities for project management and cost control remain with the agency sponsoring the project.
4. Authorize routine amendments to the MTIP to proceed expeditiously to avoid unnecessary delays and committee activity.
5. Provide for dealing with emergency situations.
6. Ensure projects are progressing to fully obligate annual funding in order to avoid a lapse of funds.
7. The changes required through the amendment do not violate any of the six core amendment rules stated on the previous page.

### Frequently Used Terms in the MTIP Programming Table

<b>ODOT Key</b>	This is a unique identification number assigned to a program or a project by the ODOT to organize all transportation projects within the State Transportation Improvement Program (STIP).
<b>MTIP ID</b>	This is a unique identification number assigned to a program or project by the MPO (Metro) to organize all transportation projects within the Metropolitan Transportation Improvement Program (MTIP).
<b>RTP ID</b>	This is a unique identification number assigned to a program or project by the MPO (Metro) to organize all transportation projects within the long range Regional Transportation Plan.
<b>Project Type</b>	This is the primary mode for the project.
<b>Lead Agency</b>	The agency that is contractually responsible for managing and delivering the project.
<b>Phase</b>	<p>The type of work being completed on the project with funds programmed for the fiscal year identified. Includes:</p> <p><b>Planning:</b> activities associated with preparing for projects for implementation, from broad systems planning to project development activities.</p> <p><b>Preliminary engineering:</b> work to create construction and environmental documents.</p> <p><b>Right of way:</b> activities associated with investigating needs for use of land for the construction or operation of a project.</p> <p><b>Construction:</b> activities associated with the physical construction of a project.</p> <p><b>Other:</b> Activities for programs or projects not defined by one of the other phase activities defined above.</p>
<b>Year</b>	The programming year is the federal fiscal year funds are expected to be available for the project. The federal fiscal year begins October 1st of the year prior to the identified year (FFY 2021 is October 1, 2020 through September 30, 2021).
<b>Fund Type</b>	Description of the federal, state or local funds assigned to a project phase
<b>Federal Amount</b>	Federal funding authority made available to a project to reimburse eligible project related expenses.
<b>Minimum Local Match</b>	Funding required to be provided by the lead agency to qualify for the federal funding authority programmed to the project.
<b>Other Amount</b>	Additional funding from non-federal sources identified as available to the project.
<b>Total Amount</b>	The amount of funding programmed as available to the project within the timeframe of the 2021-2024 Metropolitan Transportation Improvement Program.
<b>Estimated Total Project Cost</b>	This includes cost of the project spent prior to 2021 and costs that may be necessary to complete the project after 2024.
<b>YOES</b>	All funds programmed in the FY21-24 MTIP are represented in year of expenditure (YOE) dollars.

## List of Acronyms

**AC** Advance Construct (State Fund Type)  
**ADA** Americans with Disabilities Act  
**AQMA** Air Quality Maintenance Area  
**ARTS** All Roads Transportation Safety  
**ATMS** Advanced Traffic Management System  
**CAAA** Clean Air Act Amendments of 1990 (Federal)  
**CMAQ** Congestion Mitigation and Air Quality (Federal Program/Fund Type)  
**CONS** Construction (Project Phase)  
**DEIS** Draft Environmental Impact Statement  
**DEQ** Department of Environmental Quality (State)  
**DOA** Design Option Alternatives (Project Phase)  
**EPA** Environmental Protection Agency  
**FAST** Fixing America's Surface Transportation (Federal Authorization Bill)  
**FDE** Final Design and Engineering (Project Phase)  
**FEIS** Final Environmental Impact Statement  
**FFO** Full Federal Oversight  
**FHWA** Federal Highway Administration  
**FTA** Federal Transit Administration  
**HCT** High-Capacity Transit  
**HOV** High-Occupancy Vehicle  
**HSIP** Highway Safety Improvement Program (Federal Program/Fund Type)  
**IOF** Immediate Opportunity Fund (State Fund Type)  
**ISTEA** Intermodal Surface Transportation Efficiency Act of 1991 (Federal Authorization Bill)  
**ITS** Intelligent Transportation System  
**JPACT** Joint Policy Advisory Committee on Transportation  
**JTA** Jobs and Transportation Act (State Program and Fund Type)  
**LCDC** Land Conservation and Development Commission (State)  
**LOS** Level of Service  
**LRT** Light Rail Transit (MAX)  
**MAP-21** Moving Ahead Towards Progress in the 21st Century (Federal Authorization Bill)  
**MAX** Metropolitan Area Express (TriMet's Light Rail System)

**MIS** Major Investment Study  
**MPO** Metropolitan Planning Organization (Metro)  
**MSTIP** Major Streets Improvement Program  
**MTIP** Metropolitan Transportation Improvement Program  
**NAAQS** National Ambient Air Quality Standards (Federal)  
**NEPA** National Environmental Protection Act (Federal)  
**NHFP** National Highway Freight Program (Federal Program/Fund Type)  
**NHPP** National Highway Performance Program (Federal Program/Fund Type)  
**NHS** National Highway System  
**OAR** Oregon Administrative Rules  
**ODOT** Oregon Department of Transportation (State)  
**ORS** Oregon Revised Statutes (State)  
**OTC** Oregon Transportation Commission (State)  
**PD** Project Development (Project Phase)  
**PE** Preliminary Engineering (Project Phase)  
**PERC** Public Engagement Review Committee  
**RFP** Regional Framework Plan (Metro)  
**ROW** Right-of-Way (Project Phase)  
**RTC** Regional Transportation Council (MPO for Southwest Washington)  
**RTO** Regional Travel Options (Metro Program)  
**RTP** Regional Transportation Plan (Metro)  
**RUGGO** Regional Urban Growth Goals and Objectives (Metro)  
**SIP** Oregon State (Air Quality) Implementation Plan  
**SMART** South Metro Area Regional Transit (Wilsonville)  
**SOV** Single-Occupancy Vehicle  
**SPR** State Planning and Research (Federal Program/Fund Type)  
**STBG** Surface Transportation Block Grant (Federal Program/Fund Type)  
**STIP** Statewide Transportation Improvement Program  
**STP** Surface Transportation Program (Federal Fund Type)

**TA** Transportation Alternatives (Federal Program/Fund Type)  
**TAZ** Transportation Analysis Zones  
**TCM** Transportation Control Measures  
**TDM** Transportation Demand Management  
**TMA** Transportation Management Area (Federal)  
**TMA** Transportation Management Association (Local)  
**TOD** Transit-Oriented Development  
**TPAC** Transportation Policy Alternatives Committee (Regional)  
**TPR** Transportation Planning Rule (State)

**TRILOC** TriMet Local Funds  
**TriMet** Tri-County Metropolitan Transportation District  
**TSM** Transportation System Management  
**TSMO** Transportation System Management and Operations (Metro Program)  
**USDOT** United States Department of Transportation  
**VMT** Vehicle Miles Traveled  
**WSDOT** Washington State Department of Transportation  
**YOE** Year of Expenditure (dollars)
