Research Associate

Anthony King

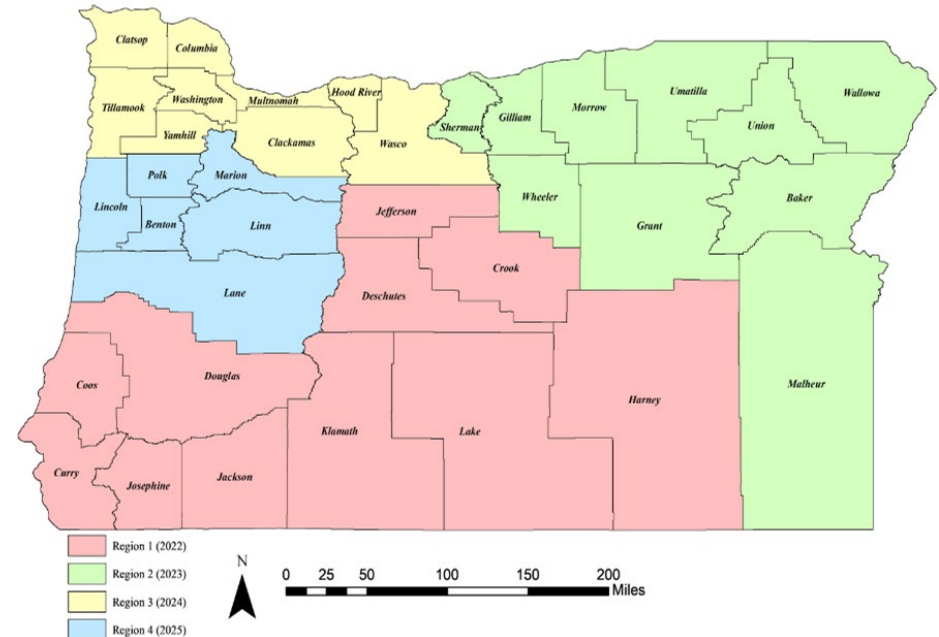

Center Coordinator

Under the OPFP, the Population Research Center (PRC) produces projections for the population of Oregon counties and Urban Growth Boundary (UGB) areas. Currently PSUPRC is tasked with forecasting counties in the Region 3 area by July 1st, 2024.

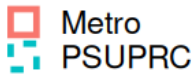

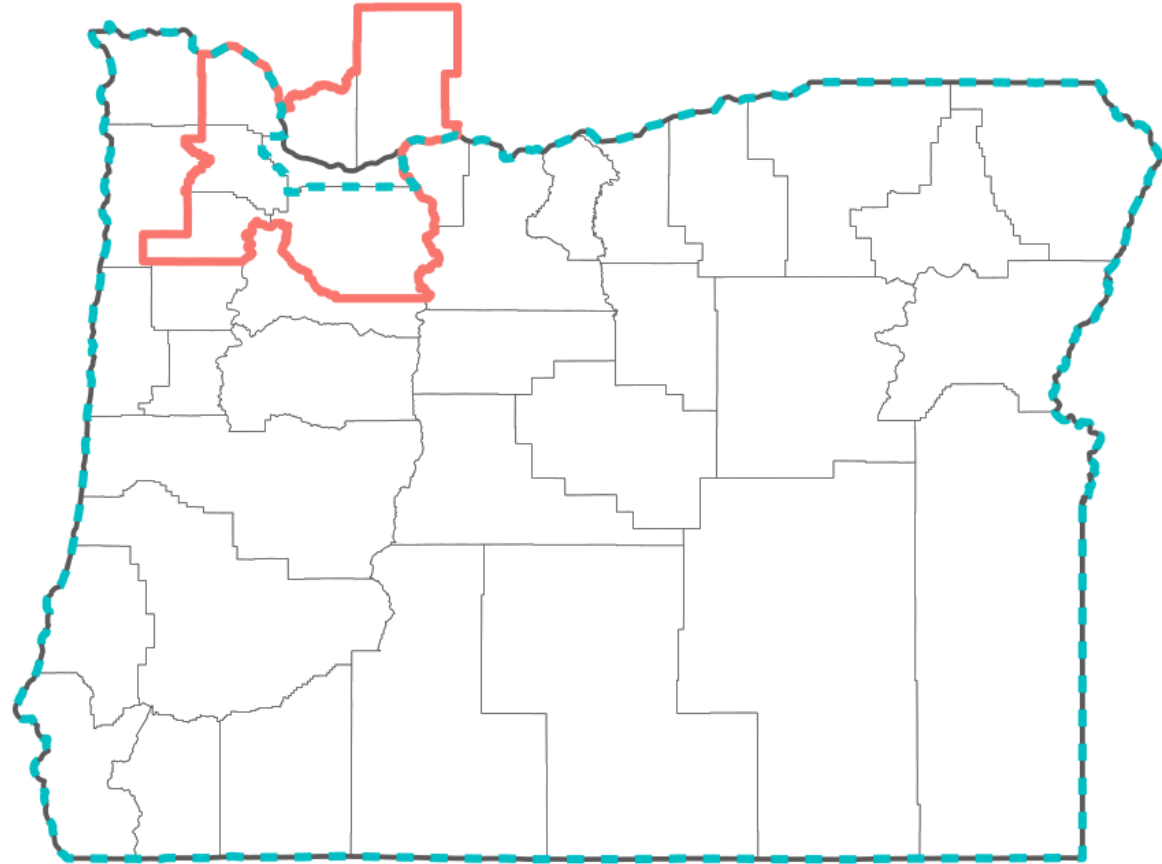

Region 3 Forecasts:

- Clatsop
- Clackamas
- Columbia
- Hood River
- Tillamook
- Wasco
- Washington
- Yamhill

OPFP Regions by County (2022-2025)

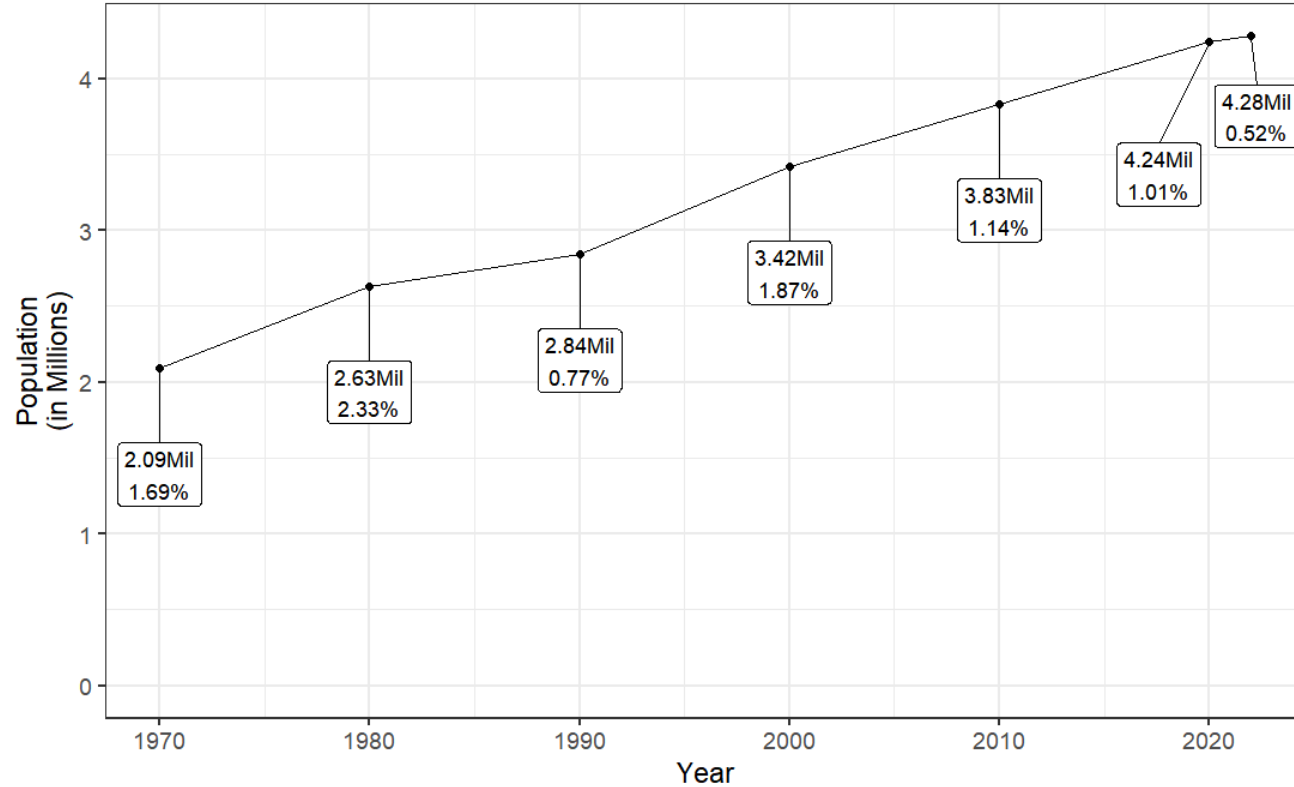

Forecasting Jurisdictions

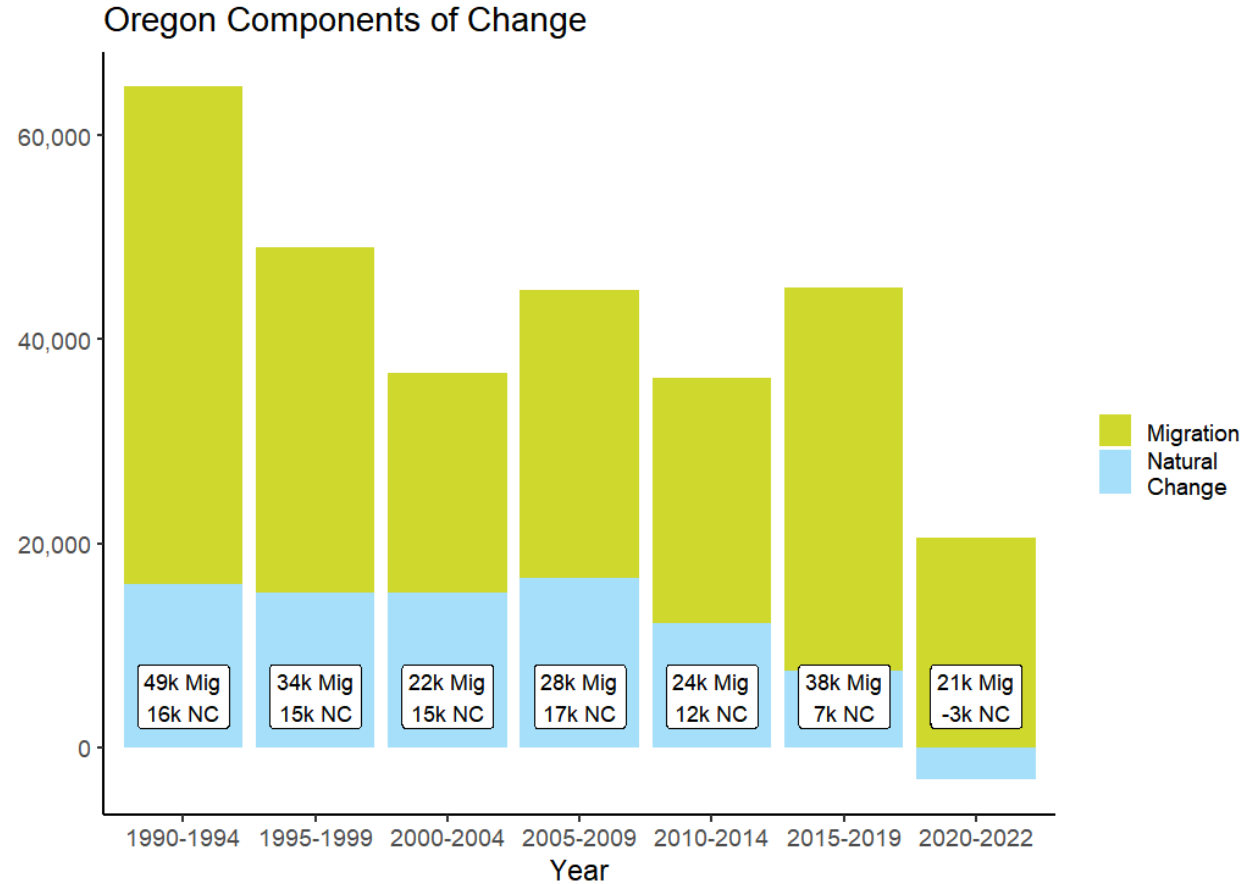

- Population Trends for Oregon
- Births (Fertility Rates)
- Deaths (Mortality Rates)
- Migration
- Aging
- Race and Ethnicity

Oregon's population has continued to grow, albeit at a rate slower than observed in the past.

Oregon Population Change

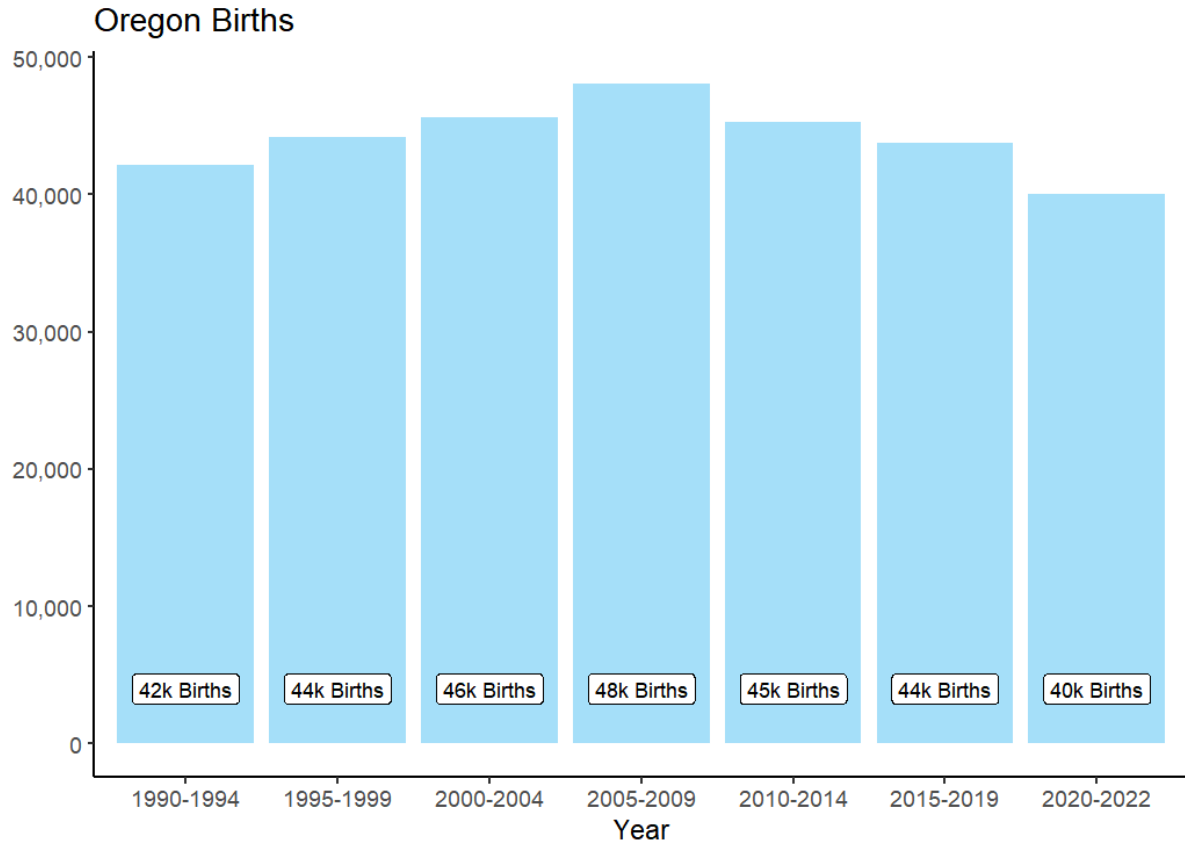

Oregon's population has largely grown due to migration in recent years.

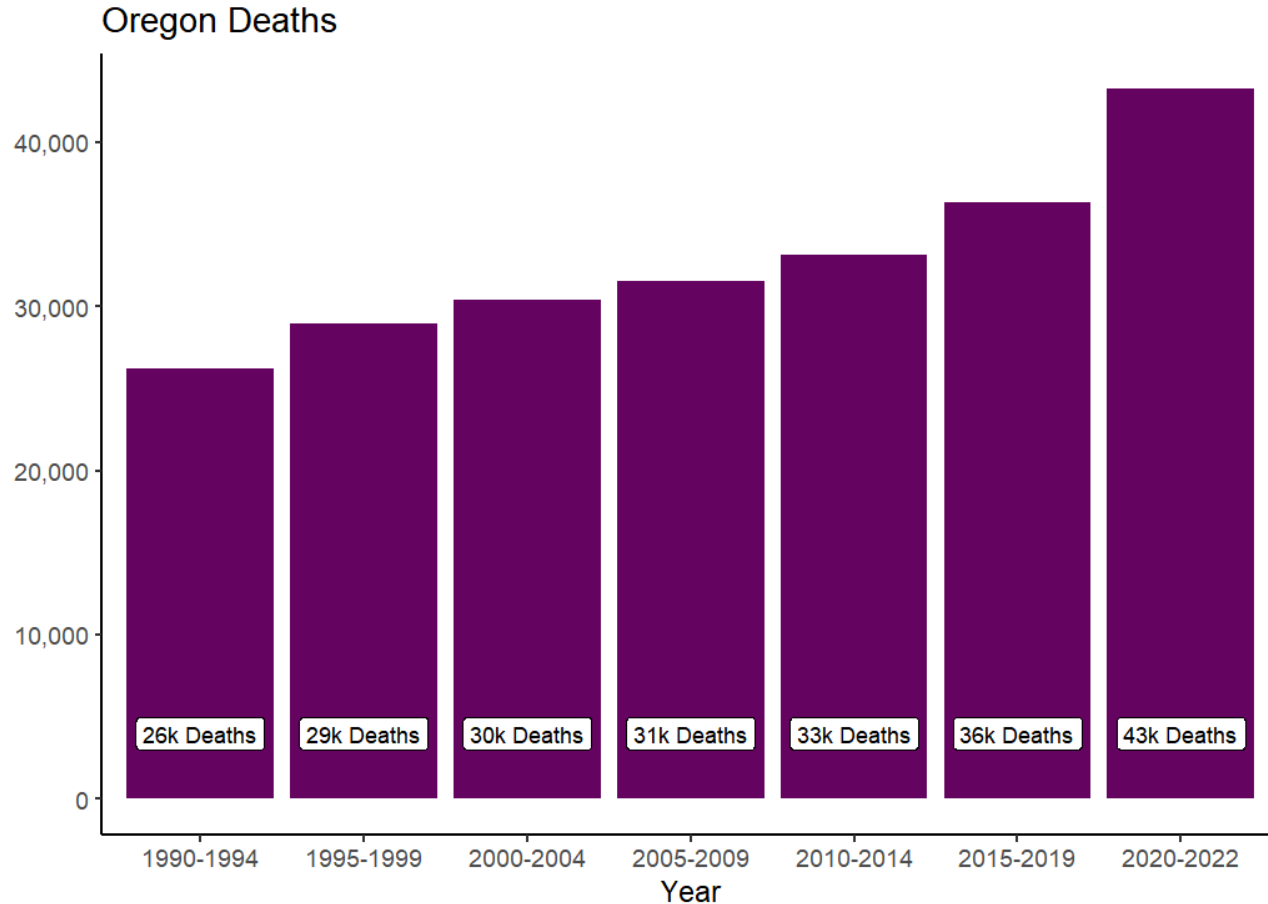

Oregon Births Over Time

Births have been on the decline since 2009, a pattern exacerbated by COVID-19.

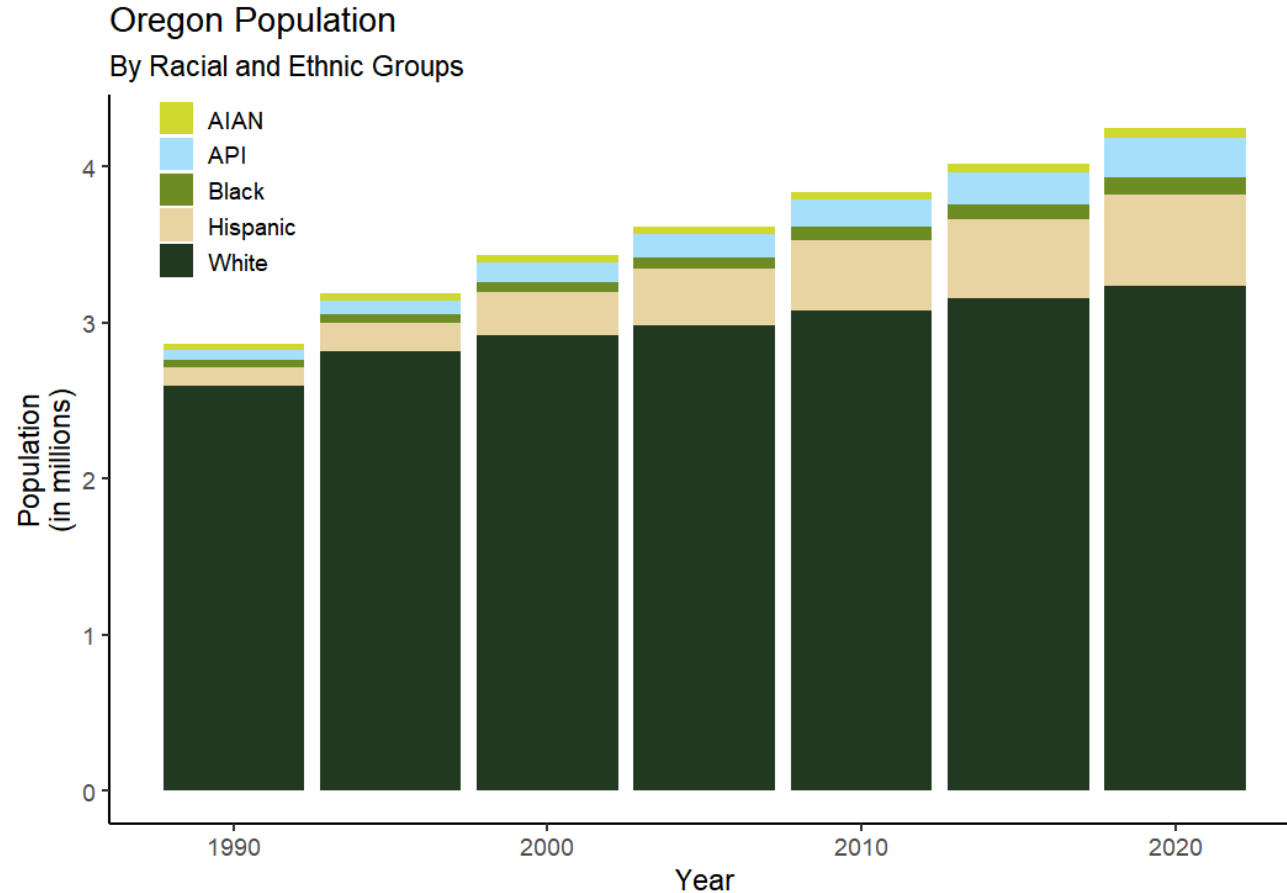

Oregon Deaths Over Time

Deaths have continued to increase over time as population both grows and ages.

Oregon Race and Ethnicity

The Oregon population has continued to diversify over time as growth of non- White populations outpaces White population growth.
