A Transit Operator TSMO Group will provide a forum for transit operators piloting new approaches that require technical, multi-agency coordination (Action 9 of the 2021 TSMO Strategy). A.J. O'Connor, Vice Chair of TransPort, was nominated to be the first Chair of this new group. TransPort will discuss nomination(s) and Members will elect the Chair based on TransPort bylaws.</i>	A.J. O'Connor (TriMet) / (All)
1:50 p.m.	Vehicle Overheight Warning System <i>Is that bridge too low or is this vehicle too tall? Height-restricted facilities represent a deficiency of the transportation system. A permit is needed for any vehicle+load higher than 14 feet and the permit comes with a routing plan. If an operator makes an error, they create a significant hazard. Washington County, TriMet and DKS are developing the concept for a warning system based on sensors to evaluate height before a potential crash.</i>	John Fasana (Washington County) / (All)
2:30 p.m.	Adjourn	Kate Freitag (ODOT)
