Topics

Review of community lens draft, Jennifer street location discussion

- **Review of Community Lens Draft:** Staff facilitated a conversation on the community criteria that was developed by staff from the community advisory group members' input and guidance throughout the past meetings. Group members wanted clarity on accessibility for the site and surrounding area, and provided some ideas for collaboration with educational programs.
- **Jennifer Street Location Discussion:** Estee Segal, Project Manager, presented an overview of the Jennifer St. Site. The presentation included information on the Phase II ESA drilling occurring on site. Community advisory group members had questions about what the Phase II ESA drilling was finding in terms of contamination, and expressed interest in being informed of the findings when a report is done. The group spent some time discussing how the Community Lens, draft 3 may be used to evaluate the Jennifer Street site."

Follow up for community advisory group questions:

Staff will incorporate the group's feedback from this meeting into the final draft of the Community Lens document and upload to the project website.
